

Slides 0.2: How This Room Works

Lesson 0.2, Unit 0. One period. Twelve slides. Slides 3 to 5 are the no-room photo tour; skip them if the class walks the real room.

Slide 1: Do now

- Yesterday's count: *[Sal: the six hope card numbers]*
- On your map handout, before we walk: draw an X where you think the fire extinguisher is.
- Do not get up.

Notes: During the debrief, blink the lights without warning and count down from five. Time it. That number goes on the wall.

Slide 2: The reset cue

- Lights.
- Countdown: five, four, three, two, one.
- Hands empty. Eyes here.
- Today it took ____ seconds. By Friday: three.

Image: a light bulb, the numbers 5 4 3 2 1, and two open hands.

Notes: "Whatever is in your hands goes down, even a whisk."

Slide 3: The tour, stops 1 to 4

- 1 Hand sink: hands only. Never food, never dishes.
- 2 Kitchen station A: one team, one role card each.
- 3 First aid kit: tell an adult first.
- 4 Fire extinguisher: I use it. You leave.

Image: four photos of the room's stops, numbered. *[Sal: take them the first week.]*

Notes: One minute per stop. Students write the number, the name, and one rule word on the map. Show a role card at stop 2 for one minute: "The card is the boss, not a person."

Slide 4: The tour, stops 5 to 7

- 5 Exits: two ways out. We meet at *[Sal: your meeting spot]*.
- 6 Supply closet: ask before you open.
- 7 Sewing stations: needles are counted out and counted back in.

Image: three more photos, numbered.

Slide 5: The tour, stops 8 to 10

- 8 Safety Data Sheet binder: what is in every bottle and what to do if it spills.

- 9 Trash and recycling: sorted. The bin is not a basketball hoop.
- 10 Teacher desk and the turn-in tray: everything goes in the tray, not on the desk.

Image: three more photos, numbered.

Slide 6: Practice the cue

- Hands on pencils. Lights. Countdown. Time: _____
- Hands on the envelopes. Lights. Countdown. Time: _____

Notes: Two practices, both timed. Then the role card on the document camera: Station Manager. “What does the Station Manager do before dismissal?” The station check.

Slide 7: Draw/See/Hear, the rules

- Pairs across the table. One describer, one drawer.
- The describer takes a card from the envelope and holds it so the drawer cannot see.
- Words only. No hand motions. No peeking. Sit on your hands if you have to.
- The drawer draws on the back of the map and may ask questions.
- Two minutes.

Notes: Round 1. Start the timer. Then compare: card next to drawing, circle the differences.

Slide 8: Compare, round 1

- Put the card next to the drawing.
- Circle the differences. Do not argue about whose fault it was.
- On the handout: two things the drawing got wrong, and the word that was missing.
- “I said a window but not which corner.”

Notes: The frame puts the blame on the word, not the person. Say that out loud.

Slide 9: Precise words

- Position: top, bottom, left, right, middle, corner, above, under, next to, inside, outside.
- Size: big, small, tall, short, as big as, half the size of.
- Count: one, two, three.
- Shape: circle, square, triangle, rectangle, oval, line, curve.

Image: a small icon next to each position word (an arrow up, an arrow to a corner, a box inside a box).

Notes: Round 2 uses at least three of these. Swap roles, new card.

Slide 10: Round 2

- Swap roles. New card.
- The describer uses at least three precise words from the last slide.
- Two minutes. Then compare again.
- Did the second drawing come out closer? Which words did it?

Slide 11: Exit card

- One zone and its rule.
- The reset cue in three words.
- One precise word I will use next time I explain something.
- Three people read line three aloud.

Notes: Collect the maps to check for eight labels; hand them back tomorrow for the FACS folder.

Slide 12: Tomorrow

- Tomorrow your plane goes down in the north woods.
- Ten things survived the crash. You decide what matters.
- Alone first. Then with your table. Then we see who decided better.
