

Handout 1.6: Measuring Practice and Equivalents

Name: _____ Date: _____ Period: _____ Team: _____

Part 1: The three techniques and the equivalents (Day 1, copy from the slide)

Kind of ingredient	Tool	Technique (how you do it)
Dry (flour, sugar, cocoa)		Spoon it in. Do not _____. Level off with a _____.
Liquid (water, milk, oil)		Pour it in on the counter. Read the line at _____.
Small amounts (salt, baking powder, vanilla)		Fill the spoon. Level it if dry. Fill to the brim if liquid. Do it over a _____, not over the mix.

Abbreviations

Abbreviation	Full word	Which is bigger, tsp or Tbsp?
tsp		
Tbsp		
c		
oz		
lb		

Equivalents (say them twice, then write them)

- 3 tsp = 1 _____
- 16 Tbsp = 1 _____
- 8 fl oz = 1 _____ (liquid)
- 4 Tbsp = _____ c
- 2 c = 1 _____ (pint)
- 16 oz = 1 _____ (by weight)

[Sal: Turkish, Portuguese, and Spanish for cup, spoon, level, and measure from Vocabulary 01.md go here on the ELL copy.]

Part 2: Practice stations (Day 1)

At each station, measure the two amounts on the card. Write the tool and the technique. If there is a scale, weigh the first amount and write the grams.

Station	Amount 1	Tool	Technique	Grams (if a scale)	Amount 2	Tool	Technique
A Flour	1/2 c				1 Tbsp		
B Sugar	1/4 c				1 tsp		
C Water	1 c				2 Tbsp		
D Oil	2 Tbsp				1/2 tsp		
E Salt	1 tsp				1/4 tsp		

Which station was hardest to get right? _____ Why? _____

Part 3: Equivalents practice (Day 1, alone, then check with a partner)

Show your work. Fractions are fine; so are decimals.

1. A recipe needs 2 Tbsp of oil. You only have a teaspoon. How many teaspoons? _____
2. A recipe needs 1/2 c of milk. How many tablespoons is that? _____
3. A recipe needs 8 fl oz of water. How many cups? _____
4. Double it: the recipe says 1/4 tsp baking powder. Doubled = _____ tsp
5. Halve it: the recipe says 3 Tbsp sugar. Halved = _____ Tbsp (which spoons would you use? _____)
6. A recipe for 4 people needs 1 1/2 c of rice. You are cooking for 8. How much rice? _____ c

Grade 8 stretch: 7. Halve 1 1/2 tsp of salt. _____ tsp. 8. A recipe for 4 needs 2/3 c of milk. Scale it to 6 people. _____ c

Part 4: Silent Measurement Challenge results (Day 2)

Team card letter: _____ Team total points: _____

Cup	What we measured	Target (g)	Our scale reading (g)	Points	If we missed, the technique error was
1					
2					

3					
4					
5					
6					

Why measuring matters (from the debrief): In baking, flour is the ____, sugar is the ____ and the ____, and baking powder is the _____. If one is off,
_____.

How our team communicated without words. Sentence starter: "Our team showed __ by ____."

The one moment we wished we could talk: _____

Teacher key

Part 1. Dry: dry measuring cups; do not pack; level with a straight edge. Liquid: liquid measuring cup; eye level. Small amounts: measuring spoons; over a bowl. Abbreviations: tsp teaspoon, Tbsp tablespoon, c cup, oz ounce, lb pound; Tbsp is bigger. Equivalents: 3 tsp = 1 Tbsp; 16 Tbsp = 1 c; 8 fl oz = 1 c; 4 Tbsp = 1/4 c; 2 c = 1 pint; 16 oz = 1 lb.

Part 2. Tools: A and B dry measuring cups and measuring spoons; C and D liquid measuring cup and measuring spoons; E measuring spoons. Typical grams for Amount 1: A 1/2 c flour about 60 to 62 g; B 1/4 c sugar 50 g; C 1 c water 237 g; D 2 Tbsp oil about 27 g; E 1 tsp salt about 6 g. *[Sal: your cups and your flour; write your numbers here.]*

Part 3. 1. 6 tsp. 2. 8 Tbsp. 3. 1 c. 4. 1/2 tsp. 5. 1 1/2 Tbsp (one tablespoon plus one and a half teaspoons, or a tablespoon and a half-tablespoon if the set has one). 6. 3 c. Stretch: 7. 3/4 tsp. 8. 1 c (2/3 times 1.5 = 1).

Part 4. Targets and points come from the teacher scoring sheet in Handout 01.06 - Silent Measurement Challenge Cards.md. Baking chemistry blanks: structure; sweetness; browning; lift (the rise); the texture or the rise changes (too much flour is dry and heavy, too little sugar is pale and bland, too much baking powder rises fast and falls, and can taste bitter). Communication answers vary; look for a named signal (pointing, a flat hand for “stop,” holding up fingers for a number, showing the card) and a real moment.
