

Unit 2: Me, My Goals, My Money

NYS content module: Individual Growth and Life Readiness (IGLR) **Length:** 30 class periods of 40 minutes (days 36 to 65 of the year; the last 10 days of marking period 1 and the first 20 of marking period 2) **CTE themes carried:** Financial and Consumer Literacy (primary); Career and Community Opportunities; Problem Solving and Innovation; Communication and Interpersonal Relationships; Health, Safety, and Wellness (stress and money); Sustainability (consumer choices) **Unit project:** The Gilded Age Market Investor Report and Personal Budget, scored with Rubric 02 - Investor Report and Personal Budget.md **Companion files in this folder:** Calendar 02.md, Vocabulary 02.md, Lessons 2.1 to 2.22, Project 02 - The Gilded Age Market Investor Report and Personal Budget.md, Rubric 02 - Investor Report and Personal Budget.md, Assessment 02.1 - Money Basics Quiz.md (given inside Lesson 2.13), Assessment 02.2 - Unit 2 Test.md (given inside Lesson 2.22). The All About Me one-pager (Lesson 2.3) and the Goal Plan (Lesson 2.5) are scored on mini rubrics inside those lessons. Slides and handouts are in 05 Materials/Unit 02/.

Reconciliation note: this plan was written to the scope and sequence and then reconciled to every lesson, the project, the rubric, and both assessments as they landed in the folder. Where a lesson page and this plan disagree, the lesson page wins; the calendar and this plan follow the lessons' round numbers, handout names, and check slots.

1. Why this unit

I spent ten years around money before I taught it. College gave me an entrepreneurship degree and an MBA. Business development at a software company taught me to read numbers for a living. Financial services and my FINRA licenses taught me how ordinary families actually save, borrow, and invest, and how often nobody explained any of it to them until it was late. When I started teaching, I looked for a way to let a 12-year-old feel what a market does to a person. What I use now is a game on paper: the Gilded Age Market, eight rounds from 1870 to 1932 and a closing bell in 1936, with real companies, two panics, a trust, a boom on borrowed money and the crash of October 1929. Students learn history and investing at the same time, and nobody needs a device.

This unit starts with the student, not the dollar. Before anyone touches a budget, students name what they value, find out what they are good at, and set a goal with a date on it. Then the money comes in: a real pay stub, a personal budget they build from Long Island prices and revise at the end of the unit, seven ways to pay, what a minimum payment really costs, what compound growth really earns, and a candy market that shows them who gets paid on every trade. Then they invest through eight rounds of the Gilded Age Market, from 1870 to 1932, survive the crash of 1929, find out what happened next to every company they held, and write a report about what they did and why. The unit closes with the 16 career clusters and a career research card, which is where I ran resume workshops for 87 or more students and where Unit 7 picks up.

I believe money skills at 12 change what a kid thinks is possible. A student who can read a pay stub, balance a budget, and sit still through a fake market crash is not the same student in

June. This is the unit where I use everything I did before teaching, and it is the unit I would show a principal first.

2. Content identified (the concept map, written out)

2.1 What the NYS module lists for this unit

All 20 lines of the Individual Growth and Life Readiness module are taught or revisited in this unit. None are skipped. Four lines have their primary home in another unit and are named that way below: IGLR 3. b) and 3. c) are first taught in Unit 0 (Lessons 0.2, 0.3, and 0.4) and revisited here; IGLR 3. d) and 5. b) are primarily Unit 7 (Lessons 7.1 to 7.5 and 7.6 to 7.11) and are previewed here. The crosswalk (Part D.2) says that if Unit 0 or Unit 7 is ever cut, those four lines move here in full; Section 6 shows how.

Line	Text (verbatim)	Taught in
IGLR 1. Personal Development a)	Examine personal values	Lessons 2.1 (24 value cards sorted and ranked), 2.3
IGLR 1. b)	Discover and evaluate personality traits and strengths	Lessons 2.2 (strengths inventory and notice cards), 2.3
IGLR 1. c)	Predict areas of personal interests relating to the future	Lessons 2.2 (interest quiz, six types, two-letter code), 2.3, 2.21
IGLR 2. Goal Setting a)	Acknowledge the role of personal values and standards in goal setting	Lessons 2.1, 2.4
IGLR 2. b)	Differentiate between SMART and Stretch goals	Lesson 2.4
IGLR 2. c)	Establish a goal for personal improvement	Lesson 2.5 (the Goal Plan: one SMART goal on a goal ladder and a decision grid on a real choice)
IGLR 2. d)	Design, implement, and evaluate a plan to attain a desired goal	Lessons 2.5 (design the ladder), 2.6 (the 24-hour time audit and weekly plan put hours against the first rung), 2.17 (the crisis plan on the decision grid), 2.19 (evaluate the plan in the report and the revised budget)
IGLR 3. Employability a)	Explore employability skills	Lesson 2.20
IGLR 3. b)	Show understanding of interpersonal dynamics	First taught in Unit 0 (Lessons 0.2, 0.3, 0.4). Revisited in Lessons 2.13

		(the Skittles trading floor: who teams up, who corners a color, who never trades) and 2.20 (soft skills on a team)
IGLR 3. c)	Demonstrate effective communication skills	First taught in Unit 0 (Lesson 0.2). Revisited in Lessons 2.3 (the two-minute share and written feedback) and 2.19 (the Investor Report and peer read)
IGLR 3. d)	Explore and implement strategies for career readiness	Primarily Unit 7 (Lessons 7.1 to 7.5: resume, ACT FAST, STAR interview). Previewed in Lesson 2.22 (six paths after high school and the career research card, which Lesson 7.2 builds the resume from)
IGLR 4. Financial Readiness a)	Identify sources of income	Lesson 2.8 (six sources sorted earned and not earned; three pay stubs)
IGLR 4. b)	Create and follow a budget	Lessons 2.7 (needs, wants, and a \$100 plan), 2.9 (the Budget Builder from a scenario card), 2.14 (the ledger's cash line: you cannot spend cash you do not have), 2.19 (the revised budget with a savings line)
IGLR 4. c)	Explore options for money transfers	Lessons 2.10 (seven ways to pay: cash, check, debit, credit, prepaid card, phone or app payment, bank transfer), 2.13 (a fee on every transfer, and who collects it)
IGLR 4. d)	Examine how to balance a bank account	Lesson 2.10 (write a check; keep a register of ten transactions to the cent)
IGLR 4. e)	Determine ways for saving money	Lessons 2.12 (three reasons to save, jar versus savings account, the five-year compound table by hand), 2.14 to 2.19 (saving versus

		investing; the savings bank at 3 percent a round against the company cards, and the savings line in the revised budget)
IGLR 4. f)	Compare and contrast different types of credit and loans	Lesson 2.11 (debit versus credit; a \$500 loan at three rates; the minimum payment; the credit score)
IGLR 4. g)	Evaluate the impact of various family transitions on personal finance	Lesson 2.9 Day 2 (the scenario cards carry a household and the grade 8 stretch rebuilds the budget when income drops 25 percent, a job loss); Lesson 2.17 (what the crash does to a family with and without a cushion). Lesson 2.9 cites this line on its standards block. Coordinate with Unit 3 Lesson 3.14
IGLR 5. Career Pathways a)	Explore various careers within the 16 national career clusters	Lessons 2.21 (the poster walk and the top three), 2.22 (one career researched)
IGLR 5. b)	Examine the skills needed to become an entrepreneur	Primarily Unit 7 (Lessons 7.6 to 7.11, FACS Shark Tank). Previewed in Lesson 2.13 (the debrief: who designed the game, how the house makes money without taking a risk, and the membership plan in Round 3) and on the Business Management, Marketing, and Finance posters in Lesson 2.21

2.2 How the CTE themes come in

- Financial and Consumer Literacy (primary): Topics 2.3 and 2.4 are built on FCL 1. Earning Income, 2. Saving, Investing, and Sharing, 3. Protecting and Insuring, 4. Buying Goods and Services, and 5. Payment Options and Credit; the Skittles Market Game and the Gilded Age Market are the two simulations that make the theme real.
- Career and Community Opportunities: Topic 2.1 uses CCO 3. Employability Skills a) to find what a student is good at, and Topic 2.5 uses CCO 2. Career Clusters and 4. Career Plans to turn that into a top three and a research card.

- Problem Solving and Innovation: the five-step decision model from Unit 0 is applied to a real choice in Lesson 2.5 and to a market crash in Lesson 2.17 (PSI 1. e)), which is the same problem with higher stakes; Lesson 2.15 tests a news dispatch as a source (PSI 4. b) b.).
- Communication and Interpersonal Relationships: the All About Me share with written feedback (2.3), the Skittles trading floor (2.13), and the Investor Report with a peer read (2.19) all require a student to say what they think and listen to what someone else thinks (CIR 1. f)).
- Health, Safety, and Wellness: Lesson 2.6 treats sleep and energy as the resource a goal runs on (HSW 1. c) and f)), and Lesson 2.17 has students notice the signs of stress in their own body when the crash dispatch lands and take one step before they write Sell in the trade log (HSW 6. c)), then stops where the health class and Unit 3 pick up.
- Sustainability: Needs vs Wants (2.7) asks what a choice costs beyond the price tag, and the revised budget in 2.19 puts a savings line before the wants, which is the household version of not using up a resource.

2.3 Trends, issues, and news

1. Buy now, pay later apps. Students see “four payments of \$12.50” on the checkout page of every sneaker and game site. Lesson 2.11 gives them the tool for it: a balance, a rate, a minimum payment, and what the total comes to. I name the apps in the debrief as one more kind of credit.
2. Phone payment apps. Most students already send and receive money on a phone, often on a parent’s account. Lesson 2.10 puts app payment next to cash, check, debit, credit, prepaid cards, and bank transfer and asks where the money comes from and what happens if the phone is lost.
3. Side hustles and creator income. Students watch people their age get paid for videos, reselling, and gaming. Lesson 2.8 lists selling things you make, tutoring, and dog walking as earned income now; the question I ask is what those people actually do all day and what most of them earn.
4. AI and jobs. Students hear that AI will take jobs. On the cluster walk in Lesson 2.21 the question for each poster is which of its three jobs a computer could do and which need a person in the room.
5. The cost of living on Long Island. Rent, a car, and groceries here cost more than the national average. Lesson 2.9’s scenario cards use Long Island prices for 2026 so the budget is not a fantasy.
6. Sports betting ads. Students see them during every game. Lesson 2.14 puts every company card on a risk line from the savings bank to RADIO; a bet belongs past the far end of that line, and Lesson 2.13 shows who designed the game and why the house always gets paid.

2.4 What students this age find interesting

1. Finding out something about themselves from a quiz, and comparing with a friend.
2. Real numbers: what a job pays, what a pay stub takes out, what a phone plan costs.
3. A leaderboard by investor number, and a crash that hits everybody at once.
4. Trading candy and figuring out who is winning.

5. Being trusted with a decision that adults usually make, and defending it in writing.

2.5 Links to other subjects

- Math: percent (deductions on a pay stub in 2.8, simple interest and the minimum payment table in 2.11, compound growth in 2.12, percent return on the Gilded Age Market in 2.18), ratios (a budget as parts of a whole in 2.9), and exponents (compound growth as repeated multiplication in 2.12; a grade 8 stretch).
- ELA: the Investor Report (2.19) is an informational piece with a claim, evidence from the journal and the ledger, and a conclusion; the career research card (2.22) is a short research summary with a source named.
- Social studies: the Gilded Age and the crash (2.14 to 2.19): the Panics of 1873 and 1893, the Standard Oil trust and its breakup, the 1920s boom on margin, October 1929 and the bottom of 1932; why prices move on news, and why the people who waited came out ahead.
- Health: stress and money (2.17): what panic does to a decision and how to notice it in the body; the health teacher and Unit 3 own stress management itself.
- Art: the All About Me one-pager (2.3) uses layout, one image, and color to say who a person is on one page, readable from three feet.

3. Enduring understandings and essential questions

Big ideas:

- Knowing what you value and what you are good at is the first step in every good decision, including money decisions.
- A goal without a plan and a date is a wish.
- Every dollar does one of three jobs: spend, save, or grow. A budget is the plan for which job each dollar gets, and savings goes first.
- Borrowed money costs money. Interest works for you when you save and against you when you owe.
- Markets go up and down. The person who panics loses; the person with a plan waits.
- Every career has a path, and the path starts with what interests you now.

Essential questions:

1. Who am I, and what do I want?
2. How do I turn a wish into a goal I can actually hit?
3. Where does money come from, where does it go, and who decides?
4. What does it cost to borrow, and what does it pay to wait?
5. When prices crash, what should I do?
6. What work could I do, and what would it take to get there?

4. Knowledge and skills

Knowledge (facts, vocabulary, ideas):

- What a value is, what a trait is, what a strength is, and the difference between an interest and a skill.
- The six interest types (realistic, investigative, artistic, social, enterprising, conventional) and what a two-letter code means.
- The five parts of a SMART goal; what a stretch goal is and when to use one; short term versus long term.
- The five-step decision model from Unit 0 (name the choice, list options, weigh each against what matters, decide, look back).
- Time and energy as resources that run out, and what a week looks like on paper.
- Needs, wants, and the gray zone, and how a value moves a thing from one column to the other.
- Sources of income, earned and not earned: allowance, chores, babysitting, dog walking, tutoring, selling things you make, an hourly job, a salary, interest on savings, a gift.
- The parts of a pay stub: gross pay, deductions (federal tax, state tax, Social Security, Medicare, health insurance), net pay.
- The parts of a budget: net income, savings first, fixed expenses, variable expenses, a bottom line at zero or above; what “balanced” means.
- Seven ways to pay: cash, check, debit, credit, prepaid card, phone or app payment, bank transfer; where the money comes from for each and what risk each one carries.
- How to write a check and keep a register; how to balance an account against a statement.
- Credit, debt, debit, loan, interest, principal, APR, minimum payment, and the credit score (300 to 850).
- Simple interest ($I = P \times r \times t$) versus compound growth; the Rule of 72 as a grade 8 stretch.
- Saving versus investing; risk and reward; the eight holdings on the Gilded Age Market (BANK, RAIL, OIL, GAS, ELEC, STEEL, AUTO, RADIO), the real company behind each ticker, and what happened next to each one.
- Why prices move (a dispatch, supply and demand, fear and greed); what a trust, a monopoly, and a margin loan are; what diversification is; what a panic, a crash, and panic selling are; how to compute a percent return.
- What a fee and a commission are, and why the house always gets paid.
- Employability skills (soft skills) and the evidence rule: a skill you can name is a skill you can show with an example.
- The 16 national career clusters; the six paths after high school (a job with on-the-job training, an apprenticeship, a certificate program, a two-year degree, a four-year degree, the military).

Skills (what students will be able to do):

- Sort 24 value cards into matters a lot, some, and less; rank the top three and explain them in writing.
- Complete a strengths inventory with notice cards from tablemates, take the interest quiz, and read a two-letter code into two careers.
- Design a one-page All About Me (values, strengths, interests and letters, two careers, a “known for” sentence), present it to a partner in two minutes, and give one specific piece of written feedback.

- Write a SMART goal and a stretch goal for the same wish and tell them apart.
- Apply the five-step decision model to a real choice and write a Goal Plan with steps and dates.
- Map a week's time and energy and find where the goal's hours come from.
- Sort 30 item cards into need, want, or gray zone; with \$100 and a price list, decide what to buy, skip, and save.
- Read a pay stub, compute net pay from gross pay, and check the percent taken out.
- Build a monthly budget from a scenario card that pays savings first, covers every fixed need, and does not spend more than the income; check a partner's.
- Describe seven ways to pay; write a check; keep a register of ten transactions to the cent; choose the safest way to pay in four situations.
- State four differences between a debit card and a credit card; compute simple interest at three rates; compare the \$25 minimum payment to \$50 a month on a \$500 balance and recommend a plan with numbers.
- Compute compound growth on the same \$100 and explain why it beats simple interest.
- Trade in the Skittles market, track the fees, and say who got paid.
- Take an investor number, sort the eight company cards from safest to riskiest, make first buys on the paper ledger with a written reason, and keep the Investor Journal every round.
- Read a dispatch, predict the price move, and check the prediction.
- Rebalance or hold when one slice of the portfolio is bigger than half, and say why.
- Fill the sell, hold, buy decision grid before the crash round (Round 7, October 1929) and follow it.
- Compute the percent return on the portfolio and on one company with the formula written out.
- Write the Investor Report from the journal and the ledger, revise the personal budget with a savings line at the top, and check a partner's report.
- Rate six soft skills honestly with evidence and write a growth plan for one.
- Pick a top three from the 16 clusters matched to the interest code, research one career on a card with a source, and name the path from grade 8 to the job.

5. Unit objectives

One per topic, upper half of Bloom's:

- Topic 2.1: Students will evaluate their own values, traits, strengths, and interests using a value card sort, a strengths inventory, and an interest quiz, and create a one-page All About Me that presents the results to a partner with evidence.
- Topic 2.2: Students will design a Goal Plan for a real personal goal by writing a SMART goal and a stretch goal, applying the five-step decision model to the choice behind it, and justifying where the time and energy will come from.
- Topic 2.3: Students will analyze a pay stub, a scenario budget, seven ways to pay, two credit payment plans, and a savings table, and create a balanced monthly personal budget that they revise at the end of the unit.

- Topic 2.4: Students will make and justify investing decisions on the Gilded Age Market across an eight-round run from 1870 to 1932 that includes the crash of October 1929, compute the percent return, and evaluate their own decisions in an Investor Report with evidence from the Investor Journal and the ledger.
- Topic 2.5: Students will assess their own employability skills and interests against the 16 career clusters, select a top three, and create a career research card with the path from grade 8 to one career.

6. Topics, sequence, and timeline

Topic	Days	Lessons	Activity lines (verb first)	Formal check at end of topic
2.1 Who I Am	5 (days 36 to 40)	2.1 Values and What Matters to Me (1); 2.2 Traits, Strengths, and Interests (2); 2.3 All About Me One-Pager (2)	sort 24 value cards into matters a lot, some, and less and rank the top three; write why each of the top three matters; sort twelve statements into trait, strength, or interest; complete the strengths inventory and read three notice cards from tablemates; take the interest quiz and read the two-letter code into two careers; design the five-part one-pager as a poster or one slide; present it to a partner in two minutes and write one specific piece of feedback	All About Me one-pager, scored on the three-criterion mini rubric (Complete, Clear, Connected; 12 points) on page 3 of Handout 02.03 - All About Me Template.md, inside Lesson 2.3 Day 2
2.2 Goals and Decisions	4 (days 41 to 44)	2.4 SMART Goals (1); 2.5	rewrite wishes as SMART goals	Goal Plan (the ladder, the

		Goals and the Five-Step Decision Model (2); 2.6 Time and Energy as Resources (1)	on the SMART Goal Builder and write one stretch goal; name the value behind the goal; build a goal ladder from a long-term goal down to the first rung; apply the five-step decision model on the decision grid to one of six scenario cards and then to a real choice; assemble the Goal Plan (ladder, grid, cover) and self-score it; run a 24-hour time audit and a weekly plan; sort the week into the four boxes and find the hours for the first rung	decision grid, and the cover), scored on the mini rubric on page 3 of Handout 02.05 - Goal Ladder and Decision Grid.md, inside Lesson 2.5 Day 2
2.3 Money Basics	8 (days 45 to 52)	2.7 Needs vs Wants Showdown (1); 2.8 Paycheck Detective (1); 2.9 Budget Like a Boss (2); 2.10 Ways to Pay (1); 2.11 Credit vs Debit and What Interest Costs (1); 2.12 Saving and Compound Growth (1); 2.13 The Skittles	sort 30 item cards into need, want, or gray zone and defend the calls with a value; plan \$100 against a price list; sort six income sources into earned and not earned; read a pay stub and compute net pay and the percent taken out;	Assessment 02.1 - Money Basics Quiz.md, 12 items, 25 points, given in the last 15 minutes of Lesson 2.13 (Step 7) after the Skittles debrief

		Market Game and Money Basics Quiz (1)	estimate one week of small wants and multiply by four; build a monthly budget on the Budget Builder from a scenario card, savings first, and check a partner's; describe seven ways to pay; write a check; keep a register of ten transactions; pick the safest way to pay in four situations; build the debit versus credit chart; compute simple interest at three rates; compare the \$25 minimum to \$50 a month on a \$500 balance; state three reasons to save and two differences between a jar and a savings account; complete the five-year compound table by hand; trade fun-size Skittles to collect one color through three rounds (a fee per trade,	
--	--	---	--	--

			the fee doubles, a membership); count the house jars and say who got paid without taking a risk; take the Money Basics Quiz	
2.4 The Gilded Age Market	10 (days 53 to 62); one round lands in every period from day 53 to day 60 (the opening buys at Round 0 and Round 1 on day 53, then Rounds 2 to 8, one a day), and the market is frozen at Round 8 before Lesson 2.19	2.14 The Gilded Age Market Opens: Risk and Reward (2); 2.15 Reading the News: Why Prices Move (2); 2.16 Diversification (1); 2.17 The Crisis and Panic Selling (2); 2.18 Buying Low, Rebalancing, and Return Math (1); 2.19 Results, the Reveal, and the Investor Report (2)	sort the eight company cards from safest to riskiest; take an investor number and make the first buys on the paper ledger at 1870 prices with \$1,000; read the ledger (shares times price, cash, bank, total) and write Entry 2; match news dispatches to price changes and run the three tests on a headline before each round; sketch the portfolio pie and rebalance or hold when one slice is over half; run three portfolios through a shock; fill the sell, hold, buy decision grid before the crash of October 1929 (Round 7) and follow it; name two signs	Project 02 - The Gilded Age Market Investor Report and Personal Budget.md, scored on Rubric 02 - Investor Report and Personal Budget.md; submitted at the end of Lesson 2.19 Day 2 (part 7 may finish at the start of Lesson 2.20)

			of stress noticed in the room; buy low and rebalance at the bottom of 1932 (Round 8); compute the percent return with the formula written out; read the closing bell leaderboard by investor number and three anonymized ledger paths; fill the reveal table (what happened next to each company); write the seven-part Investor Report from the journal and the ledger; revise the Lesson 2.9 budget with a savings line at the top; peer read and submit	
2.5 Work and Careers	3 (days 63 to 65); each period opens with a 10-minute Round 2 replay block (1925 buys on day 63; the crash on day 64; 1932, then the close at 1936, on day 65)	2.20 Employability: Soft Skills Superpower (1); 2.21 The 16 Career Clusters and My Top Three (1); 2.22 Education Roadmap and Career Research Card, and the Unit 2 Test (1)	trade the Round 2 replay block on a fresh ledger and write the short Round 2 line in the journal; rate six soft skills with evidence and write a growth plan for one; act out a soft skill in a 30-second scene; walk the	Career research card (the Topic 2.5 formal check, scored 0 to 4 on the printed checklist in Handout 02.22; kept in the FACS folder for Unit 7 Lesson 7.2); Assessment 02.2 - Unit 2

			16 cluster posters with the match sheet and pick a top three that fits the interest code; describe the six paths after high school; research one career on a card with a source and mark its path; close the market at 1936 and total the Round 2 ledgers; take the Unit 2 test	Test.md, 20 items, 44 points, given in the last 15 minutes of Lesson 2.22
--	--	--	---	---

Day counts: $5 + 4 + 8 + 10 + 3 = 30$. The day-by-day placement is in Calendar 02.md.

The Gilded Age Market run, as the lessons set it. The market opens at Round 0 (1870) on day 53 (Lesson 2.14 Day 1): every student takes an investor number and \$1,000 of paper money and makes the first buys on the ledger, and Round 1 (1873, the Panic of 1873) lands at the end of that period. From then on one round lands in every period, about ten minutes inside the lesson's timed procedure, the way the kit sets it: I post the year and the new prices, students value their holdings, I read the dispatch, and four minutes of trading go on the ledger. 2.14 carries Rounds 1 and 2 (1873, 1882); 2.15 Rounds 3 and 4 (1893, 1901); 2.16 Round 5 (1911); 2.17 Round 6 (1928, the boom, the margin line opens) and Round 7 (October 1929, the crash and the margin calls, the first thing students see on day 59); 2.18 Round 8 (1932, the bottom). The market is frozen at Round 8 at the end of day 60; Lesson 2.19 Day 1 is the closing bell at 1936 prices, the leaderboard by investor number, and the reveal (page 5 of the kit: what happened next to each company), and Day 2 is the report. That eight-round run and its close are what Rubric 02 scores. Then Round 2, as Project 02 lays it out: Lessons 2.20, 2.21, and 2.22 each open with a ten minute replay block on a fresh ledger with a fresh \$1,000, replaying 1925 to 1936 with everyone knowing what is coming: the 1925 buys on day 63, the crash at Round 7 prices on day 64, the 1932 prices and then the close at 1936 on day 65. Round 2 is the second experiment, the one adults never get to run: knowing the crash is coming, do you still buy on margin, and do you buy at the bottom. It counts as daily work (the three short Round 2 lines in the journal) and participation, not toward the rubric. The last block closes at the reset cue in Lesson 2.22 before the test; the Round 2 standings go up by investor number in the first 10 minutes of Unit 3 Day 1 (day 66), with two or three "sentence to my future self" lines from Entry 10 read aloud.

Flex lessons (drop first when time runs short): Lesson 2.6 (fold the 168-hour grid into the closure of Lesson 2.5 Day 2 as a homework sheet; IGLR 2. d) is still taught in 2.5) and Lesson 2.16 (fold diversification into Lesson 2.15 Day 2 as the do now and one journal prompt, "how

many risk levels do you own,” and land Round 5 (1911) there; Lesson 2.6’s time audit goes home as the first homework of the unit). For the 30-week version (Unit 2 at 26 days), also run Lessons 2.2 and 2.15 in one day each (2.15 in one day carries Rounds 3 and 4 in one period). In that version the scope and sequence folds the Unit 7 resume and STAR lessons into Topic 2.5, adding three days, so the 30-week Unit 2 is 29 days. **Lessons that must not be cut:** 2.9 (the personal budget) and 2.11 (credit and what interest costs). Those two are the safety lessons of this unit: a student who leaves without a budget and without knowing what a minimum payment does is the student who gets hurt.

Semester version (20 days): Topic 2.1 as 2.1 and 2.2 combined (1) and 2.3 in one day (1); Topic 2.2 as 2.4 and 2.5 combined in one day with the Goal Plan as homework (1); Topic 2.3 as 2.7, 2.8, 2.9 in one day, 2.10 and 2.11 combined, and 2.12 with the quiz in the last 15 minutes (5; the Skittles game is the one that goes, or runs as a reward day if a period frees up); Topic 2.4 as written (10, the whole eight-round run and the close); Topic 2.5 as 2.21 with soft skills folded into the do now, and 2.22 with the test, each with a Round 2 replay block (2). Total 20. **Every-other-day version:** the same 20 meetings, with the rounds run as homework on the off days (I post the next round’s year, prices and dispatch at the end of the meeting; students value their holdings and log their trades on the paper ledger at home) and the journal line checked at the next meeting.

7. Standards block

NYS module lines taught (every line, by code, with the lesson that teaches it)

- NYS IGLR 1. Personal Development a) Examine personal values : Lessons 2.1, 2.3
- NYS IGLR 1. Personal Development b) Discover and evaluate personality traits and strengths : Lessons 2.2, 2.3
- NYS IGLR 1. Personal Development c) Predict areas of personal interests relating to the future : Lessons 2.2, 2.3, 2.21
- NYS IGLR 2. Goal Setting a) Acknowledge the role of personal values and standards in goal setting : Lessons 2.1, 2.4
- NYS IGLR 2. Goal Setting b) Differentiate between SMART and Stretch goals : Lesson 2.4
- NYS IGLR 2. Goal Setting c) Establish a goal for personal improvement : Lesson 2.5
- NYS IGLR 2. Goal Setting d) Design, implement, and evaluate a plan to attain a desired goal : Lessons 2.5, 2.6, 2.17, 2.19
- NYS IGLR 3. Employability a) Explore employability skills : Lesson 2.20
- NYS IGLR 3. Employability b) Show understanding of interpersonal dynamics : Unit 0 Lessons 0.2, 0.3, 0.4 (first taught); Lessons 2.13, 2.20 (revisited, at unit level; neither page prints the line)
- NYS IGLR 3. Employability c) Demonstrate effective communication skills : Unit 0 Lesson 0.2 (first taught); Lessons 2.3, 2.19 (revisited, through CIR 1. f))
- NYS IGLR 3. Employability d) Explore and implement strategies for career readiness : Unit 7 Lessons 7.1 to 7.5 (primary); Lesson 2.22 (preview)
- NYS IGLR 4. Financial Readiness a) Identify sources of income : Lesson 2.8
- NYS IGLR 4. Financial Readiness b) Create and follow a budget : Lessons 2.7, 2.9, 2.14, 2.19

- NYS IGLR 4. Financial Readiness c) Explore options for money transfers : Lessons 2.10, 2.13
- NYS IGLR 4. Financial Readiness d) Examine how to balance a bank account : Lesson 2.10
- NYS IGLR 4. Financial Readiness e) Determine ways for saving money : Lessons 2.12, 2.14, 2.15, 2.16, 2.17, 2.18, 2.19
- NYS IGLR 4. Financial Readiness f) Compare and contrast different types of credit and loans : Lesson 2.11
- NYS IGLR 4. Financial Readiness g) Evaluate the impact of various family transitions on personal finance : Lessons 2.9 Day 2 (grade 8 stretch: the budget when income drops 25 percent), 2.17 (a family with and without a cushion in a crash); cited on the Lesson 2.9 standards block
- NYS IGLR 5. Career Pathways a) Explore various careers within the 16 national career clusters : Lessons 2.21, 2.22
- NYS IGLR 5. Career Pathways b) Examine the skills needed to become an entrepreneur : Unit 7 Lessons 7.6 to 7.11 (primary); Lessons 2.13, 2.21 (preview, at unit level)

CTE theme lines used (text verbatim from the theme modules)

Lines cited on a lesson page are listed with the lesson. Lines marked “unit level” come from the crosswalk’s IGLR rows and are carried by the unit even where no lesson page prints them.

Financial and Consumer Literacy:

- CTE FCL 1. Earning Income c) Analyze factors that affect gross and net income : Lesson 2.8
- CTE FCL 1. Earning Income d) Explain basic information found on pay stubs : Lesson 2.8
- CTE FCL 1. Earning Income e) Analyze systems for recording income and documenting expenditures : Lesson 2.9
- CTE FCL 1. Earning Income f) Understand that national and global economic factors that may impact personal income : Lessons 2.15, 2.17 (unit level; the state’s line reads as printed)
- CTE FCL 2. Saving, Investing, and Sharing a) Describe the purpose of saving money as it applies to their future goals : Lesson 2.12 (2.4 at unit level)
- CTE FCL 2. Saving, Investing, and Sharing b) Define “investing” and explain how saving and investing are related : Lesson 2.14
- CTE FCL 2. Saving, Investing, and Sharing c) Explore different savings and investment tools and methods : Lessons 2.12, 2.15, 2.16, 2.18
- CTE FCL 2. Saving, Investing, and Sharing f) Apply decision-making skills to saving, investing, and donating decisions : Lessons 2.18, 2.19
- CTE FCL 3. Protecting and Insuring a) Identify various types of financial risk : Lesson 2.14
- CTE FCL 4. Buying Goods and Services b) Distinguish between needs, wants, values, and goals and tell how each impacts spending and savings decisions : Lesson 2.7
- CTE FCL 4. Buying Goods and Services c) Develop a spending and savings plan (budget) based on income and expenses : Lesson 2.9
- CTE FCL 4. Buying Goods and Services d) Explain the features of checking accounts and the roles of checking accounts in budgeting and consumer purchasing : Lesson 2.10

- CTE FCL 4. Buying Goods and Services f) Apply a decision-making model to maximize consumer satisfaction when purchasing goods and services : Lesson 2.13
- CTE FCL 5. Payment Options and Credit a) Explore and compare various payment options : Lessons 2.10, 2.13
- CTE FCL 5. Payment Options and Credit b) Define the terms “credit” and “debt” : Lesson 2.11
- CTE FCL 5. Payment Options and Credit c) Examine factors that affect the choice to use credit, the costs and benefits of using credit, and the personal and legal responsibilities of using credit : Lesson 2.11
- CTE FCL 5. Payment Options and Credit f) Understand and explain the basics of the “credit score” and the effects of consumer behaviors on their personal credit scores : Lesson 2.11 (unit level; the lesson teaches the score in one paragraph)
- CTE FCL 6. Careers in Financial and Consumer Services a) Investigate knowledge, skills, and practices needed for a career in the financial and/or consumer services fields : Lesson 2.21 (unit level; the Finance cluster poster)

Career and Community Opportunities:

- CTE CCO 2. Career Clusters c) Examine the 16 national career clusters and their use in guiding initial career planning : Lesson 2.21
- CTE CCO 2. Career Clusters d) Identify clusters for further investigation based on personal interests : Lessons 2.2, 2.21
- CTE CCO 3. Employability Skills a) Identify personal characteristics such as abilities, interests, and values and examine how they might impact career choices : Lesson 2.1
- CTE CCO 3. Employability Skills c) List and describe employability skills and ways they benefit individuals in community and work situations : Lesson 2.20
- CTE CCO 3. Employability Skills d) Demonstrate personal development of employability skills through practice of these skills in a variety of classroom applications : Lesson 2.20
- CTE CCO 4. Career Plans a) Examine potential career choices to determine knowledge, skills, and abilities associated with each : Lesson 2.22
- CTE CCO 4. Career Plans b) Assess personal characteristics such as interests, abilities, and aptitudes in relation to characteristics associated with careers of interest : Lessons 2.2, 2.22
- CTE CCO 4. Career Plans d) Formulate a personal career plan that includes short-term and long-term goals needed to carry out the career plan : Lessons 2.4, 2.5
- CTE CCO 2. Career Clusters a) Identify and use career resources to obtain information about careers and employment trends : Lesson 2.22 (unit level; the career sheets and the research card’s source line)

Problem Solving and Innovation:

- CTE PSI 1. Problem Solving e) Demonstrate personal development of problem-solving skills through practice of these skills in a variety of classroom applications : Lessons 2.5, 2.17

- CTE PSI 4. Research Applications in CTE b) b. Evaluating the source to determine if the author(s) or publisher can be considered an authoritative source for the desired content : Lesson 2.15

Communication and Interpersonal Relationships:

- CTE CIR 1. Communication f) Demonstrate personal development of communication skills through practice of these skills in a variety of classroom applications : Lessons 2.3, 2.19
- CTE CIR 1. Communication e) Understand the role of communication skills in establishing cooperation, compromise, and collaboration in relationships : Lesson 2.13 (unit level; the teams and trades on the floor)
- CTE CIR 2. Listening c) Show understanding of active listening and feedback techniques : Lesson 2.3 (unit level; the two-minute share and the written feedback box)

Health, Safety, and Wellness:

- CTE HSW 1. Health Practices c) Identify personal health practices that promote overall good health : Lesson 2.6
- CTE HSW 1. Health Practices f) Describe how an individual's health status impacts performance of tasks at home, at school, and in workplace and community settings : Lesson 2.6
- CTE HSW 6. Stress Management c) Recognize signs of stress and take steps to reduce its impact on overall wellness : Lesson 2.17 (named and practiced once at the crash round; stress management itself is health class and Unit 3, see Section 11)
- CTE HSW 5. Social-Emotional Learning c) Label, understand, and apply strategies for managing emotions; feeling and showing empathy for others; making responsible decisions; and handling challenging situations : Lessons 2.5, 2.17 (unit level)

Sustainability:

- CTE SUS 1. Resources b) Explain how sustainability can be a factor in decision making : Lesson 2.7 (unit level; the gray zone questions)
- CTE SUS 1. Resources f) Research the personal, environmental, and financial costs and benefits of sustainability-conscious decisions to individuals, families, schools, workplaces and communities : Lesson 2.7 (unit level)

NYS FACS Learning Standards (Intermediate)

The state's IGLR module lists Standards 2 and 3. Every lesson cites Standard 3 with the key idea and a PI; the crosswalk assigns Standard 2 (key idea only) to IGLR 3. b) and 3. c), which is a unit-level citation here.

Standard 3: Resource Management. Students will understand and be able to manage their personal and community resources. Key Idea: Students will understand and be able to manage personal resources of talent, time, energy, and money and make effective decisions in order to balance their obligations to work, family, and self.

- PI A: Students understand how the family can provide for the economic, physical, and emotional needs of its members. (Lessons 2.9 Day 2, 2.17; the IGLR 4. g) citation)
- PI B: Students understand the resources available to them, make informed decisions about the use of those resources, and know some ways to expand resources. (Lessons 2.4, 2.5, 2.7, 2.8, 2.10, 2.11, 2.12, 2.13, 2.14 to 2.19)
- PI C: Students are able to budget their time and money. (Lessons 2.6, 2.9, 2.10, 2.19)
- PI D: Students understand how working contributes to a quality living environment. (Lesson 2.20)
- PI E: Students identify their own abilities and interests as possible guides to career choice. (Lessons 2.1, 2.2, 2.3, 2.21, 2.22)

Standard 2: A Safe and Healthy Environment. Students will acquire the knowledge and ability necessary to create and maintain a safe and healthy environment. Key Idea: Students will know the basic principles of home and community safety. They can demonstrate the skills necessary to maintain their homes and workplaces in a safe and comfortable condition. They can provide a safe and nurturing environment for themselves and others. (Unit-level citation for IGLR 3. b) and 3. c), Lessons 2.3, 2.13, 2.19, 2.20; the fit is the key idea's last sentence, and no Standard 2 PI applies, as the crosswalk notes.)

The PI letters are NYLearns codes; the NYSED print document lists the indicators as bullets.

CDOS (Intermediate)

- CDOS 1 Career Development: Students will be knowledgeable about the world of work, explore career options, and relate personal skills, aptitudes, and abilities to future career decisions. (Lessons 2.2, 2.21, 2.22)
- CDOS 2 Integrated Learning: Students will demonstrate how academic knowledge and skills are applied in the workplace and other settings. (Unit level: Lessons 2.8, 2.11, 2.12, 2.18, where percent and exponents do real work)
- CDOS 3a Universal Foundation Skills: Students will demonstrate mastery of the foundation skills and competencies essential for success in the workplace. Sub skills used in this unit:
 - Basic Skills: Students listen to and read the ideas of others and analyze what they hear and read; acquire and use information from a variety of sources; and apply a combination of mathematical operations to solve problems in oral or written form. (Lessons 2.8, 2.11, 2.12, 2.18)
 - Thinking Skills: Students evaluate facts, solve advanced problems, and make decisions by applying logic and reasoning skills. (Lessons 2.4, 2.5, 2.13, 2.16, 2.17)
 - Personal Qualities: Students demonstrate an understanding of the relationship between individuals and society and interact with others in a positive manner. (Lessons 2.1, 2.3, 2.20)
 - Interpersonal Skills: Students demonstrate the ability to work with others, present facts that support arguments, listen to dissenting points of view, and reach a shared decision. (Unit level: the peer reads in 2.3, 2.9, and 2.19 and the teams on the Skittles floor in 2.13)
 - Technology: Students select and use appropriate technology to complete a task. (Lesson 2.10; the calculators in the return math at unit level)

- Managing Information: Students select and communicate information in an appropriate format (e.g., oral, written, graphic, pictorial, multimedia). (Lessons 2.14, 2.15, 2.19)
- Managing Resources: Students understand the material, human, and financial resources needed to accomplish tasks and activities. (Lessons 2.6, 2.7, 2.9)
- Systems: Students understand the process of evaluating and modifying systems within an organization. (Unit level: Lesson 2.13, who designed the game and why; Lesson 2.18, rebalancing)

National FCS 3.0 (LEAD FCS Education, 2018 to 2028; descriptors paraphrased from the 3.0 compilation, crosswalk A.5)

Core competencies for this unit:

- 1.1.6 Build a life plan that lays out how to gain what a person must know and be able to do to reach personal, family, and career goals. (Lesson 2.22; 2.5 at unit level)
- 1.2.1 Examine possible careers to find what each one requires and offers in knowledge, skills, attitudes, and openings. (Lessons 2.2, 2.3, 2.21, 2.22)
- 1.2.4 Work productively on teams at school, at work, and in the community, including with people different from yourself. (Unit level for Lesson 2.13; the IGLR block omits “and with diverse populations”; the 3.0 competency is the one paraphrased)
- 1.2.8 Show the work habits, ethics, and professional conduct employers expect. (Lesson 2.20)
- 2.1.1 Use time management, organization, and step-by-step process skills to rank tasks and reach goals. (Lessons 2.1, 2.4, 2.5, 2.6)
- 2.1.2 Examine how people and families choose among needs and wants. (Lessons 2.1, 2.5, 2.7, 2.17; also on Project 02)
- 2.1.3 Examine the decisions behind providing food that is safe and nourishing for individuals and families. (Unit level: the food line of the Lesson 2.9 budget, priced the way Unit 1 priced the \$40 dinner)
- 2.5.1 Examine how resources get used when individuals, families, and communities choose among needs and wants. (Lesson 2.13; 2.6 and 2.7 at unit level)
- 2.6.1 Judge why personal and family financial planning matters. (Lesson 2.12; 2.9 at unit level)
- 2.6.2 Use sound money management principles in personal and family finances. (Lessons 2.8, 2.9, 2.10, 2.13, 2.19; also on Project 02)
- 3.3.4 Compare different ways to save and invest. (Lessons 2.12, 2.14, 2.15, 2.16, 2.18, 2.19; also on Project 02)
- 13.3.2 Show the spoken and unspoken behaviors and attitudes that make communication work. (Unit level for the two-minute share in 2.3 and the peer read in 2.19)

Secondary competencies cited on individual lesson pages (all confirmed in the 3.0 text; see crosswalk B.1 and E.1):

- 2.4.3 Weigh how technology use affects quality of life. (Lesson 2.10)

- 3.3.1 Explain how the economy shapes personal income, family security, and consumer choices. (Lesson 2.8)
- 3.3.3 Examine how using credit affects money plans in the short run and the long run. (Lesson 2.11)
- 3.3.8 Examine what builds or damages a credit rating and how that rating changes the rates and terms offered for credit and insurance. (Lesson 2.11; confirmed in the 3.0 text, not printed in the IGLR block)
- 13.2.1 Examine how personal characteristics affect relationships. (Lesson 2.2)

Unit-level competencies from the crosswalk's IGLR rows, not printed on a lesson page:

- 1.2.2 Show the skills used to find a job and to keep one. (Lesson 2.22, preview of Unit 7)
- 2.5.3 Examine the economic effects of the laws and rules that apply to consumers and to the people who provide services. (Lesson 2.11, the numbers a lender has to print; Lesson 2.13, the rules of the game)
- 3.1.2 Examine openings for jobs and for starting a business. (Lesson 2.13; the IGLR 5. b) preview)
- 3.3.2 Show the parts of a financial plan that keep needs, wants, values, goals, and resources distinct, for people of many backgrounds. (Lessons 2.7, 2.9)
- 3.3.6 Examine how the big transitions in a life change a financial plan. (Lessons 2.9 Day 2, 2.17; the IGLR 4. g) citation)
- 12.2.4 Examine how life events shape a person's physical, emotional, social, moral, and cognitive development. (Lesson 2.9 Day 2; the IGLR block prints "influence" where 3.0 prints "influences"; the 3.0 competency is the one paraphrased)
- 13.1.1 Examine how people build and keep interpersonal relationships. (Lesson 2.13)
- 13.3.3 Show how to listen well and give useful feedback. (Lesson 2.3)

Not cited: 2.7.2, 2.7.3, and 2.7.4, which the IGLR module block prints but which do not exist in the 3.0 text (crosswalk E.1). The same content is covered by 2.6.1, 2.6.2, 3.3.2, 3.3.3, and 3.3.4 above. Lessons 2.10 and 2.11 each looked for a 2.6 credit or payment competency and found none in the 3.0 text; the notes on those lesson pages say so. Also not cited: 2.1.7, 12.1.1, 13.3.1. Credit LEAD FCS Education on the site.

Career Ready Practices (as the IGLR module lists them; wording from the extract's assembled list)

- CRP 1. Act as a responsible and contributing citizen and employee
- CRP 3. Attend to personal health and financial well-being
- CRP 4. Communicate clearly and effectively and with reason
- CRP 8. Utilize critical thinking to make sense of problems and persevere in solving them
- CRP 9. Model integrity, ethical leadership, and effective management
- CRP 10. Plan education and career paths aligned to personal goals
- CRP 11. Use technology to enhance productivity

Career Ready Practices are a secondary citation on the unit page only; the CCTC source text has not been fetched (crosswalk E.2).

8. Project

Name: The Gilded Age Market Investor Report and Personal Budget. Full sheet in Project 02 - The Gilded Age Market Investor Report and Personal Budget.md (handed out in Lesson 2.14 and reread in 2.19); rubric in Rubric 02 - Investor Report and Personal Budget.md. The market's rules, price table, dispatches, company cards and answer key are in Handout 02.14 - The Gilded Age Market Kit.md (teacher); the student's instrument for the whole run is Handout 02.19 - Paper Ledger.md.

The scenario: It is 1870. Every student is an investor with \$1,000 of paper money and an investor number; no name touches the board. The market runs eight rounds, one per class period, from 1870 to 1932, and closes in 1936. On the board are the savings bank (3 percent a round, never falls) and, as they arrive in history, RAIL, OIL, GAS, ELEC, STEEL, AUTO and RADIO. Each round the student values the ledger at the new prices, hears the dispatch (the Panic of 1873, the Standard Oil trust, the Panic of 1893, US Steel and the trustbusters, the breakup of Standard Oil, the 1920s boom with margin loans), decides what to buy, sell, or hold, and writes one Investor Journal entry saying why. Round 7 is October 1929: the crash and the margin calls. Round 8 is the bottom of 1932, and the market freezes there. On the closing bell the 1936 prices go up, the leaderboard goes up by investor number, then the reveal: what happened next to each real company (page 5 of the kit) and the lesson of each. Then the student writes it up on the report template and revises the personal budget from Lesson 2.9 with a savings line at the top.

Deliverables: (1) the Investor Journal, Entries 1 to 10, one per class day, stapled behind the report (the three short Round 2 lines follow in Lessons 2.20 to 2.22 as daily work); (2) the Investor Report on Handout 02.19 - Investor Report Template.md, seven parts: starting and closing total; percent return with the formula written out; three decisions with a ledger number each and what happened; what the crash taught me; one thing I would do differently; the reveal table (what happened next to each company); the revised personal budget with a savings line; (3) the sell, hold, buy decision grid from 2.17 and the Return Math handout from 2.18, stapled behind; (4) a peer read with three boxes checked and two comments, one specific.

Steps by day: Day 1 (Lesson 2.14, day 53): saving versus investing and the risk ladder, the company cards sorted safest to riskiest, investor numbers, the first buys on the ledger at 1870 prices (Round 0); Round 1 (1873, the Panic of 1873) lands at the end of the period. Day 2 (2.14, day 54): reading the ledger (shares times price, cash, bank, total), Entry 2; Round 2 (1882, the oil trust and Edison). Days 3 and 4 (2.15, days 55 and 56): why prices move, supply and demand, the three tests on a headline, then the tests applied to the dispatches; Round 3 (1893, the Panic) and Round 4 (1901: US Steel, the trustbusters, The Landlord's Game). Day 5 (2.16, day 57): three portfolios and a shock (the Panic of 1893 the class just lived through), the pie sketch, rebalance or hold; Round 5 (1911: the breakup of Standard Oil, GM and RCA arrive). Days 6 and 7 (2.17, days 58 and 59): Round 6 (1928, the boom, the margin line opens) and the sell, hold, buy decision grid taught before the crash; then Round 7 (October 1929, the crash, margin calls), signs of stress, who sold and who held. Day 8 (2.18, day 60): Round 8 (1932, the bottom): buying low, rebalancing, the percent return formula, my own return; the market freezes at Round 8. Day 9 (2.19, day 61): the closing bell at 1936 prices, the leaderboard by investor number, the reveal, three ledger paths, Entry 9. Day 10 (2.19, day 62):

write the report, revise the budget, peer read, submit; part 7 may finish at the start of Lesson 2.20. Round 2 (2.20 to 2.22, days 63 to 65): the replay of 1925 to 1936 on a fresh ledger with a fresh \$1,000, ten minutes at the start of each period (1925 buys; the crash; 1932, then the close at 1936), with three short Round 2 lines in the journal; the Round 2 standings go up by investor number in the first 10 minutes of Unit 3 Day 1.

Group or individual: individual portfolio and individual report. Each student has a trading partner who checks the return math and does the peer read. Partners are the same pairs as the Skittles trades where that worked.

Choice built in: which companies to hold and how many shares; hold or rebalance at every round; whether to borrow on the margin line in Round 6; the form of the report (written on the template, typed, dictated to a partner, or recorded as a voice note with the template numbers on paper); which three decisions to write about; whether the revised budget's savings line goes to a savings account first and a slow, spread-out investment second, or to a goal from Lesson 2.5.

ELL and IEP supports: sentence starters for the journal and the report in Spanish (Vocabulary 02.md and the template boxes); the reveal slides with one picture per company; the return math as a fill-in with the subtraction line and the division line in separate boxes; calculators for all; a teacher copy of the ledger totals by round in place of a lost journal; three decisions can be two; extended time into the Round 2 block; a seat away from the leaderboard on the closing bell if rank is a stressor; the report may be written in the first language with the numbers in English, to be verified by a native speaker for scoring.

How it is presented: the closing bell debrief has two rules said before anyone speaks: nobody is named unless they name themselves, and nobody says "loser" about anyone. Two or three volunteers from the top and the bottom say what they did in one sentence. Three anonymized ledger paths, by investor number only, from the collected ledgers or the three printed in the Paper Ledger's teacher key (one that never sold, one that sold in the crash and sat in the bank, one that sold in the crash and bought at the bottom), are the texts the class reads. The grade is the rubric, not the rank: a student who finished last with a diversified portfolio, a calm crisis grid, correct math, and an honest report scores higher than a student who got lucky. I say that on day 1 and again on the closing bell.

9. Assessment plan

- **Formative (daily):** the do now, a check for understanding in every lesson (thumbs, a clipboard walk with a yes or no per student, a quick sort, a cold call), a 3-2-1 or one-line exit card most days, the Investor Journal entry on every trading day, and the pair check on the Budget Builder. All daily work is scored complete, partial, or missing.
- **Formal at the end of each topic:**
 - Topic 2.1: the All About Me one-pager, scored by the teacher on the three-criterion mini rubric (Complete, Clear, Connected; 12 points) printed on page 3 of Handout 02.03 - All About Me Template.md, with a peer feedback box, inside Lesson 2.3 Day 2.
 - Topic 2.2: the Goal Plan (page 1 the SMART goal and ladder, page 2 the decision grid on a real choice, page 3 the cover with a self-score), scored on the mini rubric

- on page 3 of Handout 02.05 - Goal Ladder and Decision Grid.md, assembled in Lesson 2.5 Day 2 and handed back scored at the start of Lesson 2.6.
- Topic 2.3: Assessment 02.1 - Money Basics Quiz.md, 12 items, 25 points, given in the last 15 minutes of Lesson 2.13 (Step 7) after the Skittles debrief. It covers Lessons 2.7 to 2.13: matching (fees and interest words), a pay stub, a budget line, interest math with work shown, and a scenario with a savings choice. Retake after a review for anyone under 20; items 6 and 11 are the arithmetic the budget revision in Project 02 depends on.
 - Topic 2.4: the project, scored on Rubric 02 - Investor Report and Personal Budget.md (criterion 1 trading participation and journal, from the ledger and the journal count; 2 analysis and decision making; 3 emotional control, from part 4 and the decision grid; 4 the report's math and reflection; 5 the revised budget; 20 points). Submitted at the end of Lesson 2.19 Day 2.
 - Topic 2.5: the career research card, scored 0 to 4 on the printed checklist in Handout 02.22 (the topic's formal check) and kept in the FACS folder for Unit 7, and the unit test.
- **Unit test:** Assessment 02.2 - Unit 2 Test.md, given in the last 15 minutes of Lesson 2.22 after the career research card and the last Round 2 replay block. Twenty items, 44 points, four per topic: matching and short answer on values, goals, money vocabulary, the Gilded Age Market, and clusters, with a scenario and a numbers item; a grade 6 version omits items 16 and 20 and scores out of 38. Retake once after a review.
 - **Grade weights within the unit** follow the course grading plan: labs and projects 40 percent (the project rubric), topic assessments 25 percent (the All About Me mini rubric, the Goal Plan mini rubric, the Money Basics Quiz, the unit test), daily work 20 percent (including the Investor Journal, the Round 2 journal lines, and the research card), participation 15 percent (conduct during the rounds counts here; a student who writes trades on someone else's ledger or changes a price after it is posted gets a zero for that day's participation and a conversation).
 - **Marking period note:** days 36 to 45 are the end of marking period 1, so the All About Me product and the Goal Plan land in MP1 and everything from the Money Basics Quiz on lands in MP2.
 - **Missed days:** a student who misses a round copies that round's prices onto the ledger, holds (no trade), and writes the journal entry from the posted dispatch the next day ("what I would have done and why") and loses no points; the ledger replaces a lost journal. A student who misses the quiz or the test takes it during the next do now.

10. Materials, budget, and room

Room assumptions: a regular classroom setup, no kitchen needed; tables that seat four (Lessons 2.1 to 2.3 keep the same fours so the notice cards come from people who have seen the student work), wall space for 16 posters, and tables that push together for the Skittles trading floor. A board for the round's year and prices, the dispatch read aloud, and, on the closing bell, the leaderboard. No devices: the market is played on paper, and a round moves when I post the next column of the price table.

Consumables, per section:

Item	Lesson	Amount	Cost	What to buy
Value card decks	2.1	24 cards per student, one deck each (about 28 sheets of card stock, cut before class, paper clip or small envelope per deck)	about \$8 in card stock, reused every year if collected	print page 1 of Handout 02.01 - Value Cards and Sort Sheet.md; laminate if the budget allows
Notice card strips	2.2	three per student, cut from the last page of the handout	school printing	Handout 02.02 - Strengths Inventory and Notice Cards.md
All About Me poster option	2.3	one sheet of 11 by 17 paper or half a poster board per student, plus spares (about 33)	about \$8	white 11 by 17 paper; markers and a ruler from the room; a stack of magazine pages or a printed sheet of small icons for students who want pictures
Scenario cards	2.9	four cards, six copies of each for a class of 24 (seven for 28)	school printing	from Handout 02.09 - Budget Builder and Scenario Cards.md, cut before class
Ways to pay demo kit	2.10	one voided check or a large printed one, printed card images, a prepaid gift card, a phone payment screenshot on the slide	\$0 to \$5	the gift card can be an empty one from the store
Skittles, fun-size bags	2.13	one per student plus six spare (about 30 bags	about \$15 to \$18	fun-size packs; allergy check the day before

		for 24 students, 34 for 28; 14 to 16 pieces per bag)		(original Skittles list no peanuts, tree nuts, milk, egg, wheat, soy, or gelatin, but they contain artificial colors; check for dye sensitivities and any “no candy” notes)
Non-food substitute for the Skittles game	2.13	five colors, about 200 pieces	about \$6, reused every year	colored paper squares cut from card stock, or plastic counters in five colors; a student who cannot have candy trades counters and nobody notices; the lesson also names paper clips for the bankers’ share
Skittles house tables	2.13	three clear jars labeled HOUSE, a stamp or pen per banker, fee cards	\$0 to \$5	jars from the room; fee cards from Handout 02.13 - Skittles Market Game Rules and Ledger.md; a prize for the winner
Gilded Age Market kit	2.14	one teacher copy of pages 1, 2, 3 and 5 (rules, price table, dispatches, answer key); investor numbers written on the ledgers, no names, with the	school printing	Handout 02.14 - The Gilded Age Market Kit.md; pages 1, 2, 3 and 5 stay with the teacher

		class list of investor numbers kept in the desk		
Company card sets	2.14	one set of eight cards per pair	about \$3 in card stock, reused	from Handout 02.14 - Company Cards.md (page 4 of the kit); page 5 of the kit, what happened next, stays with the teacher until the reveal
The 16 cluster posters	2.21	16 sheets, color, card stock	about \$8, reused all year and in Unit 7	printed from Handout 02.21 - Career Cluster Walk Posters and Match Sheet.md; the eight FACS-related posters go where the walk starts
Printing: sort sheets, quizzes, the template, the Budget Builder, register practice, interest practice, the Investor Journal, the paper ledger, the decision grid, the return math, the report template, the self-rating, the match sheet, the research card	2.1 to 2.22	about 14 pages per student	school printing	all from 05 Materials/Unit 02/
Sticky notes and index cards	2.1, 2.8, 2.22	one pad, one pack	already in the room	table labels for the value sort, the six income

				source cards, the closing sticky note on day 65
--	--	--	--	--

Unit total for one section: about \$50 in consumables the first year (about \$30 after that, once the card decks, the counters, and the posters exist), under the \$60 target. The Skittles line is the only one a second section repeats in full. Calculators are the one equipment item most rooms are missing: a class set of 30 basic calculators is about \$30 one time and is used in 2.8, 2.9, 2.11, 2.12, and 2.18.

Equipment (already in a regular classroom; buy what is missing): projector and screen; a class set of calculators; a document camera or a phone on a stand for the pay stub and the check demo; a timer visible to the room; the reset cue; painter's tape for the risk line on the floor (2.14) and the poster walk (2.21).

Handouts (in 05 Materials/Unit 02/, as the lessons name them):

- Topic 2.1: Handout 02.01 - Value Cards and Sort Sheet.md; Handout 02.02 - Strengths Inventory and Notice Cards.md; Handout 02.02 - Interest Quiz.md; Handout 02.03 - All About Me Template.md (draft template, layout guide, mini rubric with peer feedback box).
- Topic 2.2: Handout 02.04 - SMART Goal Builder.md; Handout 02.05 - Goal Ladder and Decision Grid.md (ladder, six scenario cards and the decision grid, Goal Plan cover and mini rubric); Handout 02.06 - 24-Hour Time Audit and Weekly Plan.md.
- Topic 2.3: Handout 02.07 - Needs vs Wants Cards and 100 Dollar Sheet.md; Handout 02.08 - Sample Pay Stub and Detective Sheet.md; Handout 02.09 - Budget Builder and Scenario Cards.md; Handout 02.10 - Ways to Pay and Register Practice.md; Handout 02.11 - Interest Math Practice.md; Handout 02.12 - Compound Growth Table.md; Handout 02.13 - Skittles Market Game Rules and Ledger.md.
- Topic 2.4: Handout 02.14 - The Gilded Age Market Kit.md (teacher: rules, price table, dispatches, company cards, answer key); Handout 02.14 - Company Cards.md; Handout 02.14 - Investor Journal.md (used every round); Handout 02.15 - News Card and Price Change.md; Handout 02.16 - Three Portfolios and a Shock.md; Handout 02.17 - Sell Hold Buy Decision Grid.md; Handout 02.18 - Return Math.md; Handout 02.19 - Investor Report Template.md; Handout 02.19 - Paper Ledger.md (the student's main instrument for the whole run).
- Topic 2.5: Handout 02.20 - Soft Skills Self-Rating and Growth Plan.md; Handout 02.21 - Career Cluster Walk Posters and Match Sheet.md; Handout 02.22 - Career Research Card and Pathways.md.

Slides: one slide outline per lesson, 2.1 through 2.22, in the same folder, Slides 02.MM - [Title].md. The site build renders every outline as an HTML deck.

No-device plan for the whole unit: none is needed. The Gilded Age Market is played on paper: the dispatch is read aloud, the round's prices go on the board from the kit's price table, each student records trades on Handout 02.19 - Paper Ledger.md, and the trading partner

checks the math; on the closing bell the leaderboard is written on the board from the ledger totals, and Lesson 2.19 Day 2 is paper already. The Round 2 blocks run the same way from the kit's 1925 prices and its Round 7, Round 8 and Close columns (Project 02 and Lesson 2.20 describe it). The Skittles game, the pay stub, the budget, the register, and the cluster walk are all paper; the All About Me has a poster option; the career research card has printed career sheets, so the only device use in the unit is the optional career research in Lesson 2.22.

11. Health and other-department coordination

Health: the health course covers sleep and stress management. Lesson 2.6 uses the sleep range for this age as one line of the time audit and names the health teacher as the source; agree on the numbers so both rooms say the same thing. FACS does not teach the stress toolkit here. Lesson 2.17 does one thing with it: when the October 1929 dispatch lands, students name two signs of stress they notice in themselves or the room and take one step (wait, breathe, reread the decision grid) before they write Sell in the trade log. That is HSW 6.c) practiced once, on purpose, with fake money. Everything else about stress belongs to the health teacher and to Unit 3 (Lessons 3.7 and 3.8). Anything a student says in 2.17 about money worry at home is treated as a referral to the counselor, not a class discussion, and the lesson says so.

Math: the math teacher covers percent in grade 6 and 7 (percent of a number, percent change) and exponents in grade 8. Lessons 2.8, 2.11, 2.12, and 2.18 use the same words and the same setup (part over whole, times 100; end minus start over start) so the skill transfers. Lesson 2.14 Day 2 gives math a real integer data set (gain or loss from \$1,000), and the four scenario cards from 2.9 make a percent practice set. Compound growth as repeated multiplication is the grade 8 stretch in 2.12 and is not required of grade 6.

Social studies: the market is set in American history, 1870 to 1936: the Panics of 1873 and 1893, the Standard Oil trust and the Sherman Antitrust Act, US Steel, the breakup of Standard Oil in 1911, the 1920s boom on margin and the crash of October 1929. If the social studies course reaches the Gilded Age or the Great Depression, Lessons 2.14 to 2.19 use the same events and the same dates (all from Handout 02.14 - The Gilded Age Market Kit.md), and the reveal in 2.19 says what happened next to each company. FACS stays on what a person does with their own money when a market falls; the causes of a crash belong to social studies.

ELA: the Investor Report is an informational piece with a claim and evidence from a source (the journal and the ledger). Lesson 2.19 uses the same claim, evidence, and conclusion words the ELA teacher uses. Share the report template with the ELA teacher so students see one structure.

Art: the All About Me one-pager (2.3) borrows the art room's layout rules (one focal point, one image, white space, readable from three feet) and can borrow its 11 by 17 paper.

12. Connections (in-building and community)

- Inside the building: the math teacher, for Lessons 2.12 and 2.18. FACS gives the math class a real percent change problem set with the kit's price table (1870 to 1936) attached, the Day 2 gain or loss numbers for integer practice, and a compound growth table students already built; the math teacher gives FACS the method and the vocabulary

students already know, and, if willing, five minutes in math class on the day of Lesson 2.18 to check the return math.

- Inside the building: the school counselor, for Lessons 2.21 and 2.22. FACS gives the counselor a class that has picked a top three from the 16 clusters with an interest code behind it and a career research card the counselor can put in the student's file; the counselor gives FACS the NYS Career Zone login routine, your school's high school course sheet for the six paths, and a ten-minute visit on day 64 or 65.
- Community: a local credit union or bank branch, for Lesson 2.10 or 2.12. FACS gives the branch a class of future members who know the difference between debit and credit and a thank-you card from each student; the branch gives FACS a ten-minute visit (in person or on video) on ways to pay and what a savings account and a certificate pay right now, and a stack of real deposit slips and blank check samples for the register practice.
- Community: a Junior Achievement volunteer, for Lesson 2.14 or 2.20. FACS gives the volunteer a class that has already built a budget and is trading a market, so the visit is a conversation and not a lecture; the volunteer gives FACS a working adult who can say what they do all day and what they earn, and one real story of a money decision that went wrong.

13. Vocabulary for translation

See Vocabulary 02.md: 63 Tier 3 terms across the five topics with a one-line student definition and a Spanish column, to be checked by a native speaker, plus sentence starters for the Investor Journal, for the All About Me share, and for giving feedback in English and Spanish. The market's own words (share, ticker, trust, monopoly, antitrust, panic, margin, crash, bottom) are in the table with the Topic 2.4 rows.
