

Assessment 2.1: Money Basics Quiz

Unit: Unit 2, Me, My Goals, My Money (Individual Growth and Life Readiness) **Topic:** 2.3 Money Basics (Lessons 2.7 to 2.13) **When:** The last 15 minutes of Lesson 2.13, after the Skittles Market Game debrief. Step 7 of that lesson's procedure holds the slot. **Category:** Topic assessments (25 percent). One retake after a review; best score counts. **Points:** 25 **Allowed:** a calculator. Nothing else. Desks clear; the game ledger goes in the folder first.

Money Basics Quiz

Name: _____ Date: _____ Period: _____

Directions: 12 items. Answer every one. Show your math on items 6, 7, and 11. You may use a calculator. Items 9 and 10 are matching; write the letter. Item 12 is a scenario; write in complete sentences. The last line on the page is your exit line; fill it in before you hand this in.

Part 1: Needs and wants (4 points)

Write N for need or W for want. If you write G for gray zone, you must give a reason on the line.

1. A monthly bus pass to get to school. _____
2. A second pair of name brand sneakers when the first pair still fits. _____
3. Toothpaste. _____
4. A concert ticket. _____

Part 2: Read the pay stub (4 points)

SUNRISE DELI, Patchogue, NY. Earnings statement for Rosa Bell. Pay period: two weeks.

Earnings	Hours	Rate	This period
Regular pay	20.00	\$17.50	\$350.00
Gross pay			\$350.00
Deductions		This period	
Federal income tax		\$21.00	
New York State income tax		\$10.50	
Social Security		\$21.70	
Medicare		\$5.08	
		This period	
Net pay		\$291.72	

5. What is Rosa's gross pay, and what is her net pay? Which one goes into her bank account? (2 points)

Gross: \$_____ Net: \$_____ The one that goes in the bank: _____

6. Add the four deductions and show that gross minus deductions equals the net pay printed on the stub. Show your math. (2 points)

Deductions: \$_____ + \$_____ + \$_____ + \$_____ = \$_____

\$_____ minus \$_____ = \$_____

Part 3: Budget math (4 points)

7. Rosa's net income for a month is about \$580. Her savings goal is \$600 in six months. Her fixed expenses are a phone plan (\$35) and a bus pass (\$60). Fill in the budget. Show your math. (2 points)

Savings, first: \$600 divided by 6 = \$_____ a month

Fixed expenses: \$_____ + \$_____ = \$_____

Left for variable expenses: \$580 minus \$_____ minus \$_____ = \$_____

8. Write F for fixed or V for variable next to each expense. (2 points; half a point each)
- _____ Phone plan _____ Pizza with friends _____ Streaming subscription _____ A birthday gift

Part 4: Ways to pay and fees (4 points)

9. Match each way to pay to its description. Write the letter. (2 points; half a point each)

Way to pay		Description
_____ Debit card		A. The bank's money, borrowed; a bill comes; interest if you do not pay in full
_____ Credit card		B. Your checking account, right now; no bill; no interest
_____ Check		C. Money loaded in advance; no bank account needed; lost is gone
_____ Prepaid card		D. A paper order to your bank to pay someone; leaves a record; can bounce

10. Match each fee to what it is. Write the letter. (2 points; half a point each)

Fee		What it is
_____ ATM fee		A. The price of borrowing money
_____ Overdraft fee		B. A charge for using a cash machine that is not your bank's
_____ Interest		C. A piece of every trade or sale, paid to a broker or

		agent
_____ Commission		D. A charge when your account goes below zero

Part 5: Interest math (3 points)

11. Ines borrows \$400 on a store card at 15 percent and pays nothing for two years. Use $I = P \times r \times t$. How much interest does she owe? What is the total she owes? Show your math. (3 points)

\$_____ x _____ x _____ = \$_____ interest

Total owed: \$_____ + \$_____ = \$_____

Part 6: Scenario (6 points)

12. Ahmed is 16. He wants a \$300 game console. He has a part-time job that pays about \$290 net every two weeks and a savings account.

Option 1: put the console on a store credit card at 24 percent and pay \$25 a month. Option 2: save \$50 a month in the savings account and pay for it in six months.

Write four to five sentences.

- Which option should he pick?
- Name one cost of Option 1.
- Name one benefit of Option 2.
- When he buys it in the store, which way should he pay, and why?
- Which budget step from Lesson 2.9 makes Option 2 work?

Exit line: One fee I will watch for, and where: _____

Teacher key

Total: 25 points. Standard lines checked are listed per item. All NYS module lines are from the Individual Growth and Life Readiness content module (IGLR) unless marked CTE.

Item	Answer	Points	Standard lines checked
1	N (accept G with a reason such as “if I could walk”)	1	IGLR 4. b); CTE FCL 4. b); National FCS 2.1.2 (Lesson 2.7, Objective 1)
2	W	1	Same
3	N	1	Same
4	W	1	Same
5	Gross \$350.00; net \$291.72; net goes in the bank	2 (1 for both numbers, 1 for “net”)	IGLR 4. a); CTE FCL 1. c) and d); National FCS 2.6.2 (Lesson 2.8, Objective 2)
6	$\$21.00 + \$10.50 + \$21.70 + \$5.08 = \$58.28$; $\$350.00$ minus $\$58.28 = \291.72	2 (1 for the sum, 1 for the subtraction matching the stub)	CTE FCL 1. d); CDOS 3a Basic Skills (Lesson 2.8, Objective 2)
7	Savings \$100; fixed \$95; left \$580 minus \$100 minus \$95 = \$385	2 (1 for savings first, 1 for the correct amount left)	IGLR 4. b); CTE FCL 4. c); Std 3 PI C; National FCS 2.6.2 (Lesson 2.9, Objective 2)
8	Phone plan F; pizza V; streaming F; gift V	2 (half each)	CTE FCL 4. c); CTE FCL 1. e) (Lesson 2.9, Objective 1)
9	Debit B; credit A; check D; prepaid C	2 (half each)	IGLR 4. c); CTE FCL 5. a); CTE FCL 4. d); National FCS 2.4.3 (Lesson 2.10, Objective 1)
10	ATM fee B; overdraft D; interest A; commission C	2 (half each)	IGLR 4. c) and f); CTE FCL 5. b); CTE FCL 4. f) (Lessons 2.11 and 2.13, Objective 1)
11	$\$400 \times 0.15 \times 2 =$	3 (1 for the rate as a	IGLR 4. f); CTE FCL

	\$120 interest; total $\$400 + \$120 = \$520$	decimal, 1 for \$120, 1 for \$520)	5. c); CDOS 3a Basic Skills; National FCS 3.3.3 (Lesson 2.11, Objective 2; Lesson 2.12, Objective 2)
12	Option 2. Cost of Option 1: interest (at 24 percent the \$300 costs well over \$300 by the time \$25 a month pays it off; any mention of interest, debt, or “it costs more than \$300” earns the point). Benefit of Option 2: no interest, and the account pays him interest while he waits; he owns it outright. Way to pay in the store: debit card or cash (his own money, no bill), or a credit card paid in full that month (fraud protection); the point needs a way and a reason. Budget step: pay yourself first (the savings line written right after income, before any expense); accept “save first.”	6: choice 1; cost of credit 1; benefit of saving 1; way to pay with a reason 2; the budget step 1	IGLR 4. b), c), e), f); CTE FCL 2. a); CTE FCL 5. a) and c); CTE FCL 4. f); National FCS 2.6.1, 2.6.2, 3.3.3 (Lessons 2.9 to 2.13, Objective 3)

Scoring notes

- 20 to 25: got it. 15 to 19: review the items missed and offer the retake. Under 15: retake after a one-on-one review with the Interest Math Practice and the Budget Builder.
- Item 7 is the one to read closely. A student who writes savings last, or writes \$0 for savings, has not got the habit; that is 1 of 2 even if the arithmetic is right.

- Item 12 is a 4 at most if the student picks Option 1 with a real argument (for example, “he has the income to pay it off in two months, so the interest is small”). That is rare and should be respected, but the way-to-pay and budget-step points still apply.
- Items 6 and 11 are the arithmetic that Project 02’s budget revision depends on. Note who missed them.

ELL and IEP versions

- ELL: the stub stays the same; items 9 and 10 include the word bank from Vocabulary 02.md in Turkish, Portuguese, and Spanish; item 12 may be answered in short phrases with the frames “He should pick Option ___ because .” **“Option 1 costs .”** “Option 2 gives .” **“He should pay with** because ___.”
- IEP and 504: extended time; the quiz may be read aloud; item 12 may be answered orally and recorded by the teacher; a calculator is already allowed for everyone.
- Grade 6 support: give items 1 through 10 and item 12 with the first three bullets only (20 points; scale to 25).
- Grade 8 stretch: add one item: “Rosa’s Social Security line should be 6.2 percent of gross. Check it.” ($350 \times 0.062 = 21.70$; it matches.) Bonus 2 points.

Sources

- The pay stub, the people, and the deli are fictional; the rate is a plausible 2026 Long Island starting wage above minimum, to be refreshed before teaching. Social Security and Medicare are the federal employee rates (6.2 and 1.45 percent).
- Standards: NYS IGLR module lines 4. a) through 4. f); CTE FCL 1. c), d), e); 2. a); 4. b), c), d), f); 5. a), b), c); CDOS 3a Basic Skills; NYS FACS Standard 3 PI C; National FCS 3.0 competencies 2.1.2, 2.4.3, 2.6.1, 2.6.2, 3.3.3. All quoted in the Lesson 2.7 to 2.13 files.
