

Handout 01.19: Peer Check Sheet

Checking team: _____ Team being checked: _____ Their family card: _____ Date: _____

Checker roles: arithmetic _____ and _____; prices and units _____ and _____; plate and rules _____; recorder _____; comments _____

Rules: write in colored pen on their plan. Mark, do not fix. Their team decides what to change. Taste does not count today; only the four checks.

Check 1: The arithmetic (recalculate every line from line 1)

Line #	Their cost	Our cost	Correct or corrected?
1			
2			
3			
4			
5			
6			
7			
8			
9			
10			
11			
12			

Their final total: \$_____ Our recalculated total: \$_____ Match? ☐ yes ☐ no

Check 2: Prices and units (verify in the circular)

Every line has a unit: ☐ yes ☐ no. Lines missing a unit: _____

Every price matches the circular this week: ☐ yes ☐ no. Lines that do not match: _____
(write the circular price on their sheet)

The number to buy matches the size (if they need 16 oz and the bag is 8 oz, they buy 2): ☐ yes ☐ no. Lines with the wrong count: _____

Check 3: The cap

Final total at or under \$40: [] yes [] no. If over, by \$_____

Pantry items marked \$0 and listed on the family card: [] yes [] no

Check 4: The plate and the family card

Group	Covered with a real dish?	Which dish?
Fruits	[]	
Vegetables	[]	
Grains	[]	
Protein foods	[]	
Dairy	[]	

Groups covered: _____ of 5 (at least 4 needed)

Every rule on their family card is honored: [] yes [] no. Which rule and which dish, if not:

Two pieces of feedback (Presenter writes; the whole team agrees)

- One thing this plan did well: _____
- One specific change (line number, what it says, what it should say):

Sentence frames:

English	Turkish	Portuguese	Spanish
Line : you wrote , it should be ____.	__ satırı: __ yazmışsınız, __ olmalı.	Linha : vocês escreveram , deveria ser ____.	Línea : escribieron , debería ser ____.
Your plan did ____ well.	Planınız ____ konusunda iyi.	O plano de vocês fez ____ bem.	Su plan hizo ____ bien.

After the plans go back (the team being checked fills this)

We agree with the check: [] all of it [] part of it. What we disagree with and why:

Changes we made (copy to the revision log on the plan sheet): _____

New final total: \$_____ Teacher sign off: _____

Teacher key

A complete check sheet has every line in Check 1 filled, a yes or no in every box in Checks 2 to 4, and two comments where the second one names a line number and a fix. The check is right when the recalculated total matches the teacher's own quick recalculation of the plan; spot check line 1 and the last line on each plan.

If a checking team writes "the math is wrong" with no line number, send it back with one question: "Which line?"
