

Vocabulary 06: From Farm to Table

Unit 6, Food Systems and Production. The unit's 49 Tier 3 words across the four topics, with a one-line definition written for a grade 6 to 7 reader and a Spanish column.

Translation status. The Spanish column is my best working translation and has not been verified by a native speaker. Use it for word banks and picture cards; have a native speaker, a bilingual colleague, or the ENL teacher check the whole table once before it is printed for students. Cooking words are the ones most likely to differ by country: what one country calls a way of cooking, another calls something else, and a few of these have no single everyday word in Spanish. Baking terms are the worst case, because “polvo de hornear” and “baking powder” describe the same jar but a student may know it by a brand name at home. **The English term stays on every card**, because students will see the English word on a real package, a real recipe, and a real station card.

Two words on this list have a second meaning in the unit. “Scale” here means multiplying a recipe up, not the machine that weighs things (the machine is in Lesson 6.3 and is called a kitchen scale). “Control” here means the comparison batch in an experiment, not being in charge.

How lessons use this file: each lesson names its own Tier 3 words, and the handout for that lesson carries a word bank pulled from this table in both languages. The site's Materials page prints this table as picture-ready cards. Twelve of these words are on the Unit 6 test, so the card is allowed on the two topic quizzes and not on the unit test.

The table

#	Topic	English term	Student definition	Spanish
1	6.1	supply chain	All the people and places a food passes through on its way from where it grew to your plate.	cadena de suministro
2	6.1	producer	The farm, ranch, orchard, or fishery where the food starts.	productor
3	6.1	processor	The business that turns a raw food into a packaged product, like wheat into flour	procesador (planta procesadora)

			or milk into cheese.	
4	6.1	distributor	The business that moves food from processors to stores, usually with trucks and a warehouse.	distribuidor
5	6.1	retailer	The store that sells food to the person who is going to eat it.	minorista (tienda)
6	6.1	harvest	Picking or gathering a crop when it is ready.	cosecha
7	6.2	in season	The time of year when a food grows naturally near you. It is usually cheaper and fresher then.	de temporada
8	6.2	local	Grown or made close to where you live, usually within a few hours' drive.	local
9	6.2	food miles	How far a food traveled from where it grew to where it is sold.	kilómetros de los alimentos (distancia recorrida)
10	6.2	farmers market	A place where growers sell their own food directly to people, usually outdoors and in season.	mercado de agricultores
11	6.2	CSA (community supported agriculture)	You pay a farm at the start of the season and get a box of its food every	agricultura apoyada por la comunidad (CSA)

			week.	
12	6.4	food insecurity	Not being sure you will have enough food, or enough of the right food, for everyone in your household.	inseguridad alimentaria
13	6.4	food desert	An area where people cannot easily reach a store that sells enough affordable, fresh food.	desierto alimentario
14	6.4	SNAP	A government program that helps families pay for groceries. It used to be called food stamps.	SNAP (programa de ayuda alimentaria de EE. UU.)
15	6.4	food pantry	A place in the community that gives food to people who need it, usually for free.	banco de alimentos (despensa de alimentos)
16	6.3, 6.5	compost	Food scraps and plant waste that break down into material that feeds soil instead of going to a landfill.	compost (abono orgánico)
17	6.5	crop rotation	Planting different crops in the same field in different years so the soil does not wear out.	rotación de cultivos
18	6.5	irrigation	Bringing water to crops on	riego

			purpose, with pipes, sprinklers, or channels.	
19	6.5	packaging	The box, bag, can, or wrapper a food comes in.	empaque (envase)
20	6.6	dry heat	Cooking with hot air, hot metal, or fire, and no added water. It browns food.	calor seco
21	6.6	moist heat	Cooking with water or steam. It softens food but does not brown it.	calor húmedo
22	6.6	bake	Cook with dry heat inside an oven.	hornear
23	6.6	roast	Cook with dry heat in an oven, usually a large piece of meat or whole vegetables.	rostizar (asar)
24	6.6	broil	Cook with strong dry heat coming from above, very close to the food.	gratinar (asar por arriba)
25	6.6	sauté	Cook quickly in a small amount of fat in a pan, moving the food.	saltear (sofreír)
26	6.6	boil	Heat a liquid until big bubbles rise fast.	hervir
27	6.6	simmer	Heat a liquid so small bubbles rise slowly. Gentler than	cocer a fuego lento

			boiling.	
28	6.6	steam	Cook with the steam above boiling water, without the food touching the water.	cocer al vapor
29	6.6	poach	Cook gently in hot liquid that is below a boil.	escalfar
30	6.6	browning	The change in color and flavor that happens when dry heat hits the surface of food.	dorado (pardeamiento)
31	6.7	leavening	Whatever makes a batter or dough rise.	leudante
32	6.7	baking powder	A leavening that already has both parts it needs inside it, so it works with any liquid.	polvo de hornear
33	6.7	baking soda	A leavening that needs an acid in the recipe, like buttermilk, yogurt, or vinegar, to make it work.	bicarbonato de sodio
34	6.7	variable	The one thing you change on purpose in an experiment.	variable
35	6.7	control	The batch you change nothing in, so you can compare every other batch to it.	control (grupo de comparación)
36	6.7	hypothesis	Your prediction, written down before you test	hipótesis

			it.	
37	6.13	yield	How many portions a recipe actually makes.	rendimiento (cuántas porciones)
38	6.13	scale (a recipe)	Multiply every ingredient so the recipe feeds more people.	escalar la receta (multiplicar)
39	6.13, 6.15	unit price	What one ounce, one pound, or one count costs. It is how you compare two sizes.	precio por unidad
40	6.14	critical path	The one step everything else waits on. If it is late, everything after it is late.	ruta crítica
41	6.14	flowchart	A plan drawn in time blocks that says who does what, when.	diagrama de flujo
42	6.14	station card	The one page at a station: the ingredients, the numbered steps, the safety reminders, and what done looks like.	tarjeta de la estación
43	6.11, 6.17	place setting	One person's plate, fork, spoon, napkin, and cup, arranged the right way.	cubierto (puesto en la mesa)
44	6.11, 6.17	host	The person who welcomes people to the table and serves them first.	anfitrión
45	6.10	cuisine	The cooking of	cocina

			one place or one people: its ingredients, its methods, and its dishes.	(gastronomía)
46	6.10	tradition	Something a family or a people has done the same way for a long time and passes on.	tradición
47	6.13, 6.17	food cost	What the ingredients in a dish actually cost.	costo de los alimentos
48	6.13, 6.17	per serving	The cost or the amount for one person.	por porción
49	6.18	ServSafe	A food safety certificate. A high school student can earn it, and restaurants ask for it.	ServSafe (certificado de seguridad alimentaria)

Sentence starters

Print these on the back of the role cards, the dish research card, and the project reflection.

For a lab role (Lessons 6.7, 6.8, 6.9, 6.16)

English	Spanish
My role is . My job is to .	Mi puesto es . Mi trabajo es .
My job in this block is ____.	Mi trabajo en este bloque es ____.
The next step is ____.	El siguiente paso es ____.
