

Scope and Sequence: Family and Consumer Sciences, Grades 6 to 8

Full year, daily, 40-minute periods, 180 instructional days. The sequence and day counts can change; everything downstream is built so a unit can move or shrink without rewriting the others.

The year at a glance

Unit	Title	NYS content module	Days	Marking period	Project (rubric scored)
0	Welcome to the FACS Room	(Launch; themes only)	5	1	Room and Lab Agreement, signed
1	Kitchen Skills and Smart Eating	Nutrition and Wellness	30	1	Feed a Family of Four on \$40: Budget Meal Lab and menu card
2	Me, My Goals, My Money	Individual Growth and Life Readiness	30	1 to 2	The Gilded Age Market Investor Report and Personal Budget
3	Growing Up, Getting Along	Human Development and Relationships	25	2	Babysitter's Activity Kit and Family Showcase
4	Spaces We Live In	Environmental Design and Management	25	2 to 3	Design a Room: scale plan, model, and pitch
5	Make It, Mend It, Wear It	Apparel and Textile Production and Design	28	3	Upcycle Challenge and hand-sewn item
6	From Farm to Table	Food Systems and Production	24	3 to 4	Feed the Class: multi-kitchen meal

					priced from a real circular
7	Launch: Career Readiness and FACS Shark Tank	Capstone (IGLR Career Pathways plus every module's careers thread)	13	4	Resume, STAR interview, and Shark Tank pitch
	Total		180		

Marking periods of 45 days: MP1 days 1 to 45 (Unit 0, Unit 1, first 10 days of Unit 2); MP2 days 46 to 90 (rest of Unit 2, Unit 3); MP3 days 91 to 135 (Unit 4, Unit 5 through day 20); MP4 days 136 to 180 (rest of Unit 5, Unit 6, Unit 7). The 180-day calendar in 02 Year Calendar.md places every day.

Why this order

1. Kitchen first. My own reflection: the first cooking lab is what won the class. Safety and sanitation come before any lab, so Unit 1 opens with the safety contract and reaches the first cooking lab on day 16.
2. Finance and careers second, before winter break. My strongest content and my own simulation, when the class already trusts me.
3. Human development in the middle of the year, when peer relationships in the room are visible and worth talking about.
4. Design and apparel back to back: both use the elements and principles of design, so the second builds on the first.
5. Food systems late, after students already have kitchen skills, so the labs can be bigger (four kitchens at once) and the thinking can go beyond the recipe.
6. A capstone that shows your school what is different about this teacher: a resume, an interview, and a pitch.

Threads that run all year: careers (every module has a Career Pathways topic; every unit has at least one careers day), consumer and financial literacy (every content module except HDR has a Consumer Resources and Finance topic), safety (Health, Safety, and Wellness theme topic 4), communication and teamwork (roles in every lab and project), and decision making (the five-step model from Unit 0 comes back in every project).

Unit 0: Welcome to the FACS Room (5 days)

Purpose: routines, trust, teamwork, and the decision-making model the whole year uses. No content module; themes carried: Communication and Interpersonal Relationships, Problem Solving and Innovation, Health, Safety, and Wellness.

Day	Topic	What students do	Check
-----	-------	------------------	-------

1	What is FACS and who is in this room	Do now on the board; course tour; the six modules as a year map; “what I hope we cook” card	Exit card
2	How this room works	Room and lab tour, zones, the reset cue, role cards explained; Draw/See/Hear communication game	Observation checklist
3	Decisions, step by step	Plane Crash decision simulation: rank survival items alone, then as a team; the five-step decision model	Team ranking sheet
4	Teamwork under pressure	Silent Measurement Challenge preview (no ingredients yet: water and rice); team norms written	Team contract
5	The agreement	Room and Lab Agreement read, discussed, signed; pre-assessment quiz on food safety and nutrition (for Unit 1)	Signed agreement, pre-assessment

Unit 1: Kitchen Skills and Smart Eating (30 days)

Module: Nutrition and Wellness (N&W). Themes: Health, Safety, and Wellness (primary), Financial and Consumer Literacy, Problem Solving and Innovation, Communication and Interpersonal Relationships, Sustainability (lab waste), Career and Community Opportunities (careers day).

Topic	Days	Lessons (a lesson can span days)	Formal check
1.1 Safe and Clean: Kitchen Safety and Sanitation	5	1.1 Hazards in a kitchen (hunt the hazard); 1.2 Handwashing, the	Kitchen Safety Exam (must pass to cook)

		danger zone, cross contamination; 1.3 Fire, burns, cuts, and what to do; 1.4 Write the class Kitchen Safety Contract	
1.2 Tools, Measuring, and Recipes	7	1.5 Tools and equipment and what each is for; 1.6 Measuring dry, liquid, and small amounts (Silent Measurement Challenge); 1.7 Reading a recipe: yield, abbreviations, steps, doubling and halving; 1.8 First lab: Mug Cake with hand-whipped cream (grade 6 version) or Scrambled Egg Tacos	Tools and Measuring performance check; Lab 1 rubric
1.3 Nutrients, MyPlate, and Labels	7	1.9 The six nutrients and what they do (pre-assessed; coordinate with health); 1.10 MyPlate beyond the food groups: portions and a real plate; 1.11 Reading a Nutrition Facts label (Label Detective); 1.12 Is this food video true? Credible sources; 1.13 Lab 2: Sheet Pan Nachos with a label discussion while it bakes	Label Reading Quiz; Lab 2 rubric
1.4 Plan, Shop, Cook: Meals on a Budget	11	1.14 Planning a meal for a family:	Project rubric (plan, math, nutrition, lab,

		needs, likes, cost; 1.15 Shopping lists and store circulars; 1.16 Unit price and comparison shopping; 1.17 Storing food safely and reducing waste; 1.18 Project launch: Feed a Family of Four on \$40 (plan and price); 1.19 Peer math check and MyPlate check; 1.20 Budget Meal Lab (cook one dish from the plan); 1.21 Menu card, pitch, and tasting gallery; 1.22 Careers in nutrition and culinary arts (careers day)	pitch); Unit 1 test
--	--	--	---------------------

No-kitchen alternative for every lab: a measuring and recipe-scaling station lab with dry goods and water, a no-cook recipe (overnight oats, trail mix, salsa with pre-cut vegetables), or a paper “plate build” with food cards.

Unit 2: Me, My Goals, My Money (30 days)

Module: Individual Growth and Life Readiness (IGLR). Themes: Financial and Consumer Literacy (primary), Career and Community Opportunities, Problem Solving and Innovation, Communication and Interpersonal Relationships, Health, Safety, and Wellness (stress and money), Sustainability (consumer choices).

Topic	Days	Lessons	Formal check
2.1 Who I Am	5	2.1 Values and what matters to me; 2.2 Traits, strengths, interests (Holland code style quiz); 2.3 All About Me one-pager	All About Me product
2.2 Goals and Decisions	4	2.4 SMART goals; 2.5 Short and long term goals, and the	Goal plan

		five-step decision model applied to a real choice; 2.6 Time and energy as resources	
2.3 Money Basics	8	2.7 Needs vs wants showdown; 2.8 Where money comes from: paychecks and deductions (Paycheck Detective); 2.9 Budget Like a Boss: a personal budget; 2.10 Ways to pay: cash, check, debit, credit, apps; 2.11 Credit vs debit and what interest costs; 2.12 Saving and the magic of compound growth; 2.13 The Skittles Market Game: fees and who gets paid	Money Basics Quiz
2.4 The Gilded Age Market	10 (plus 10-minute Round 2 replay blocks during Topic 2.5)	2.14 The market opens: risk and reward, safe vs risky; 2.15 Reading the news: why prices move; 2.16 Diversification; 2.17 The crisis and panic selling; 2.18 Buying low, rebalancing, return math; 2.19 Results, the reveal, and the Investor Report	Investor Report and rubric
2.5 Work and Careers	3	2.20 Employability: soft skills superpower; 2.21 The 16 career clusters and my top	Career research card

		three; 2.22 Education roadmap and a career research card (Career Box preview)	
--	--	--	--

The project is the Investor Report from the Gilded Age Market (a class game on paper, 1870 to 1936: eight rounds, the crash of 1929, and the closing bell) plus the personal budget from 2.9, revised after the market closes.

Unit 3: Growing Up, Getting Along (25 days)

Module: Human Development and Relationships (HDR). Themes: Communication and Interpersonal Relationships (primary), Health, Safety, and Wellness, Career and Community Opportunities, Problem Solving and Innovation.

Topic	Days	Lessons	Formal check
3.1 Growing Across the Lifespan	5	3.1 Stages from infant to older adult: what changes; 3.2 Ages and stages of young children (object permanence demo); 3.3 Adolescence: what is changing and why it is normal; 3.4 Heredity, environment, and who I am becoming	Lifespan Stages Quiz
3.2 Self-Concept, Peers, and Stress	6	3.5 Self-concept and self-image, media and the filtered life; 3.6 Peer influence: pressure, refusal skills, skits; 3.7 Stress: what it is, my stress map; 3.8 Stress management toolkit (tested in class); 3.9 Digital footprint and online relationships	Stress Plan
3.3 Communication,	6	3.10 Listening and I-	Communication

Conflict, Relationships		messages; 3.11 Conflict: prevent, manage, repair (role plays); 3.12 Healthy vs unhealthy relationships: the signs; 3.13 Friendship, dating, and boundaries at this age	performance task
3.4 Families and Caring for Others	8	3.14 Types of families and how families change; 3.15 Roles and responsibilities at home, chores and contributions; 3.16 What parents and caregivers do; 3.17 Babysitting basics: safety, safe sleep, never shake a baby, what to do in an emergency; 3.18 Project: Babysitter's Activity Kit (design and build an age-appropriate activity for a young child, test it, present it); 3.19 Careers in human services and education	Project rubric; Unit 3 test

Coordinate with health: puberty and reproductive health stay in health class; FACS covers self-concept, stress, relationships, family, and child care.

Unit 4: Spaces We Live In (25 days)

Module: Environmental Design and Management (EDM). Themes: Sustainability (primary), Problem Solving and Innovation, Health, Safety, and Wellness, Financial and Consumer Literacy, Career and Community Opportunities.

Topic	Days	Lessons	Formal check
4.1 Safe, Healthy, Sustainable Homes	7	4.1 Housing needs across the lifespan	Home Safety and Conservation Quiz

		and types of housing; 4.2 Home safety hunt: hazards by room, emergency plans; 4.3 Simple maintenance and repairs (change a bulb, unclog a drain, reset a breaker); 4.4 Conserving energy and water at home (the home energy audit); 4.5 Green choices: waste, reuse, materials	
4.2 Design: Elements, Principles, Color	8	4.6 Elements of design in a real room; 4.7 Principles: balance, focal point, rhythm, proportion; 4.8 Color in the Home (frosting color mixing and room cards); 4.9 Texture, pattern, and mood boards; 4.10 Reading and drawing a floor plan to scale (daily floor plan do now starts here)	Design Vocabulary Check; Color rubric
4.3 Design a Room project	8	4.11 The client brief (a family member with a need); 4.12 Plan: scale drawing and traffic flow; 4.13 Furnish it on a budget (price furnishings from real listings); 4.14 Build: shoebox or foam board model; 4.15 Pitch and gallery walk	Project rubric; Unit 4 test

4.4 Careers	2	4.16 Careers in housing, interior design, and sustainability; 4.17 Unit review	(in test)
-------------	---	--	-----------

Unit 5: Make It, Mend It, Wear It (28 days)

Module: Apparel and Textile Production and Design (ATPD). Themes: Sustainability (primary), Financial and Consumer Literacy, Problem Solving and Innovation, Health, Safety, and Wellness (tool safety), Communication and Interpersonal Relationships (what clothing says), Career and Community Opportunities.

Topic	Days	Lessons	Formal check
5.1 What We Wear and Why	5	5.1 Clothing for roles, activities, weather, and safety; 5.2 What clothing communicates (and what is okay to say about it); 5.3 Fibers: natural and manufactured, the burn and stretch tests (teacher demo); 5.4 Care labels and laundry: sort, wash, dry, fold	Fibers and Care Quiz
5.2 Hand and Machine Sewing Skills	11	5.5 Sewing tools and safety (needle, pins, scissors, seam ripper); 5.6 Threading, knotting, the running stitch; 5.7 Backstitch and whipstitch; 5.8 Sewing on a button; 5.9 Repair Clinic: hem, seam, patch; 5.10 Meet the machine: parts, safety, threading, and paper drills (three days); 5.11 Build the drawstring	Stitch sampler performance check; item rubric

		bag on the machine (three days) [no working machines: the archived hand build replaces 5.10 and 5.11]	
5.3 Smart Apparel Consumers	4	5.12 Comparing the same item across stores, secondhand, and online; 5.13 Cost per wear and quality checks; 5.14 Fast fashion and where clothes go when we are done	Consumer comparison task
5.4 Upcycle Challenge project	6	5.15 Design brief: turn a used textile into something useful; 5.16 Plan and prototype; 5.17 Make (two days); 5.18 Fashion-show gallery and reflection	Project rubric; Unit 5 test
5.5 Careers	2	5.19 Careers in textiles, apparel, and design; unit review	(in test)

Unit 6: From Farm to Table (24 days)

Module: Food Systems and Production (FSP). Themes: Sustainability (primary), Financial and Consumer Literacy, Health, Safety, and Wellness, Career and Community Opportunities, Problem Solving and Innovation, Communication and Interpersonal Relationships.

Topic	Days	Lessons	Formal check
6.1 Where Food Comes From	6	6.1 Trace a food from farm to plate (supply chain trace); 6.2 Local, seasonal, and global; 6.3 Food waste audit in our own room; 6.4 Food scarcity and food deserts, here and elsewhere; 6.5	Food Systems Quiz

		Sustainable food methods: gardens, composting, packaging	
6.2 Food Preparation Methods and Science	8	6.6 Cooking methods: dry heat, moist heat, and why; 6.7 Quick bread science lab (leavening experiment); 6.8 Lab: Cheesy Pasta Marinara with role cards; 6.9 Lab: Black Bean Quesadillas; 6.10 Global foods: one dish, three cultures; 6.11 Table setting and food sharing across cultures	Lab rubrics; Methods check
6.3 Feed the Class project	8	6.12 Menu options and constraints (no knives, budget, allergies); 6.13 Scale the recipe and cost it from the real circular; 6.14 Build the master flowchart; 6.15 Shopping list and unit price check; 6.16 Cook day (four kitchens); 6.17 Serve, eat, clean, reflect	Project rubric; Unit 6 test
6.4 Careers	2	6.18 Careers in food systems, from farm to restaurant; unit review	(in test)

Unit 7: Launch: Career Readiness and FACS Shark Tank (13 days)

Capstone. Modules: IGLR Employability and Career Pathways, plus the careers threads of every unit. Themes: Career and Community Opportunities (primary), Communication and

Interpersonal Relationships, Problem Solving and Innovation, Financial and Consumer Literacy.

Topic	Days	Lessons	Formal check
7.1 Present Yourself	5	7.1 The resume: the three-part bullet; 7.2 Build your resume; 7.3 ACT FAST: think on your feet; 7.4 How to talk about yourself in an interview (STAR); 7.5 Mock interviews with peer feedback	Resume and interview rubric
7.2 FACS Shark Tank	8	7.6 What a business is: problem, customer, product, price; 7.7 Big Idea Factory: a product or service from any FACS module; 7.8 Know your customer and price it (price, cost, margin); 7.9 The elevator pitch; 7.10 Build the pitch and prototype (two days); 7.11 Shark Tank Showdown; 7.12 Year reflection and portfolio	Pitch rubric; year reflection

Flex versions

- 30 weeks daily (150 days): drop Unit 7 (fold the resume and STAR lessons into Unit 2 Topic 2.5, adding 5 days), cut Unit 1 to 26, Unit 2 to 26, Unit 3 to 22, Unit 4 to 21, Unit 5 to 24, Unit 6 to 21 by removing the marked flex lessons (listed in each unit plan). Total $5 + 26 + 26 + 22 + 21 + 24 + 21 + 5$ (careers and STAR) = 150.
- One semester daily (90 days): Unit 0 (3), Unit 1 (20: safety, tools, one lab, labels, the \$40 project), Unit 2 (20: who I am, money basics, the 10-day Gilded Age Market run), Unit 3 (12: lifespan, stress, communication, babysitting basics), Unit 4 (10: safety and conservation, color, a floor plan), Unit 5 (15: fibers and care, hand sewing, a small item), Unit 6 (10: where food comes from, one lab, a scaled shopping task). Every module still appears.

- Every other day for a year (90 meetings): same as the semester plan, with the Gilded Age Market rounds (prices and dispatch posted at the end of a meeting, trades logged on the paper ledger at home) and the daily floor plan do now run as homework or on the off days.
- Two-year spiral (if students take FACS in both grade 7 and grade 8): Year A = Units 0, 1, 2, 3; Year B = Units 4, 5, 6, 7, with Unit 1's safety exam repeated at the start of Year B.

What each unit must contain when written

Unit plan (module, days, enduring understandings and essential questions, knowledge and skills, objectives, topics with day counts and activity lines, themes with a sentence each, standards block, project and rubric, assessment plan, materials and budget, no-kitchen or no-machine alternative, connections block, translation-ready vocabulary list), a Monday to Friday calendar, every lesson on the one template, the project sheet, the rubric, the topic assessments with answer keys, slides, and handouts.
